(g) Real and personal property for public airports.

(1) Notwithstanding any other provision of this Act [former sections 1611 to 1614, 1615 to 1622, 1623 to 1632 and 1633 to 1646 of this Appendix], and disposal agency designated pursuant to this Act [such sections] may, with the approval of the Administrator of General Services, convey or dispose of to any State, political subdivision, municipality, or tax-supported institution, without monetary consideration to the United States, but subject to the terms, conditions, reservations, and restrictions hereinafter provided for, all of the right, title, and interest of the United States in and to any surplus real or personal property (exclusive of property the highest and best use of which is determined by the Administrator of General Services to be industrial and which shall be so classified for disposal without regard to the provisions of this subsection) which, in the determination of the Administrator of the Federal Aviation Agency, is essential, suitable, or desirable for the development, improvement, operation, or maintenance of a public airport as defined in the Airport and Airway Development Act of 1970 [section 1701 et seq. of Title 49] or reasonably necessary to fulfill the immediate and foreseeable future requirements of the grantee for the development, improvement, operation, or maintenance of a public airport, including property needed to develop sources of revenue from nonaviation businesses at a public airport.

(2) Except as provided in paragraph (3) of this subsection, all property disposed of under the authority of this subsection shall be disposed of on and subject to the following terms, conditions, reservations, and restrictions:

(A) No property disposed of under the authority of this subsection shall be used, leased, sold, salvaged, or disposed of by the grantee or transferee for other than airport purposes without the written consent of the Administrator of the Federal Aviation Agency, which consent shall be granted only if the Administrator of the Federal Aviation Agency determines that the property can be used, leased, sold, salvaged, or disposed of for other than airport purposes without materially and adversely affecting the development, improvement, operation, or maintenance of the airport at which such property is located.

(B) All property transferred for airport purposes shall be used and maintained for the use and benefit of the public, without unjust discrimination.

(C) No exclusive right for the use of the airport at which the property disposed of is located shall be vested (either directly or indirectly) in any person or persons to the exclusion of others in the same class. For the purpose of this condition, an exclusive right is defined to mean—

(1) any exclusive right to use the airport for conducting any particular aeronautical activity requiring operation of aircraft;

(E) During any national emergency declared by the President or by the Congress, the United States shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession, without charge, of the airport at which the surplus property is located or used, or of such portion thereof as it may desire: *Provided, however,* That the United States shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively or over which it may have exclusive possession and control, during the period of such use, possession, or control, and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintenance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession: *Provided, further,* That the United States shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively, of any improvements to the airport made without United States aid.

(F) The United States shall at all times have the right to make nonexclusive use of the landing area of the airport at which the surplus property is located or used, without charge: *Provided, however,* That such use may be limited as may be determined at any time by the Administrator of the Federal Aviation Agency to be necessary to prevent undue interference with use by other authorized aircraft: *Provided further,* That the United States shall be obligated to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

(G) Any public agency accepting a conveyance or transfer of surplus property under the provisions of this subsection shall release the United States from any and all liability it may be under for restoration or other damages under any lease or other agreement covering the use by the United States of any airport, or part thereof, owned, controlled, or operated by the public agency upon which, adjacent to which, or in connection with which, the surplus property was located or used: *Provided,* That no such release shall be construed as depriving the public agency of any right it may otherwise have to receive reimbursement under section 17 of the Federal Airport Act [former section 1116 of Title 49] for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency.

(H) In the event that any of the terms, conditions, reservations, and restrictions upon or subject to which the property is disposed of is not met, observed, or complied with, all of the property so disposed of or any portion thereof, shall, at the option of the United States, revert to the United States in its then existing condition.

(3) In making any disposition of surplus property under this subsection, the disposal agency is authorized, upon the request of the Administrator of the Federal Aviation Agency, the Secretary of the Army, or the Secretary of the Navy, to omit from the instruments of disposal any of the terms, conditions, reservations, and restrictions required by paragraph (2) hereof, and to include any additional terms, conditions, reservations, and restrictions, if the Administrator of the Federal Aviation Agency, the Secretary of the Army, or the Secretary of the Navy determines that such omission or inclusion is necessary to protect or advance the interests of the United States in civil aviation or for national defense.

(4) Repealed. Oct. 1, 1949, ch. 589, § 5, 63 Stat. 700.

(5) All surplus property within the purview of this subsection which is not disposed of pursuant hereto shall be disposed of as provided elsewhere in this Act [former sections 1611 to 1614, 1615 to 1622, 1623 to 1632, and 1633 to 1646 of this Appendix] or other applicable Federal Statute.

The Administrator of General Services, from funds appropriated to the War Assets Administration, shall reimburse the Secretary of the Interior for the costs incurred in making any such determination.

(2) Conveyances of property for historic-monument purposes under this subsection shall be made without monetary consideration: *Provided,* That no property shall be determined under this paragraph to be suitable or desirable for use as an historic-monument except in conformity with the recommendation of the Advisory Board on National Parks, Historic Sites; Buildings and Monuments established by section 3 of the Act entitled "An Act for the preservation of historic American sites, buildings, objects, and antiquities of national significance, and for other purposes", approved August 21, 1935 (49 Stat. 666) [section 463 of Title 16], and no property shall be so determined to be suitable or desirable for such use if (A) its area exceeds that necessary for the preservation and proper observation of the historic monument situated thereon, or (B) its historical significance relates to a period of time within the fifty years immediately preceding the determination of suitability and desirability for such use.

(3) The deed of conveyance of any surplus real property disposed of under the provisions of this subsection—

(A) shall provide that all such property shall be used and maintained for the purpose for which it was conveyed for a period of not less than twenty years, and that in the event that such property ceases to be used or maintained for such purpose during such period, all or any portion of such property shall in its then existing condition, at the option of the United States, revert to the United States; and

(B) may contain such additional terms, reservations, restrictions, and conditions as may be determined by the Administrator of General Services to be necessary to safeguard the interests of the United States.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1736 to 1738, 1739 to 1745, and 1746 of this Appendix.

§ 1736. Definitions.

As used in this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] the term—

(a) "Secretary" means the Secretary of Commerce.

(b) "War-built vessel" means an oceangoing vessel of one thousand five hundred gross tons or more, owned by the United States and suitable for commercial use—

(1) which was constructed or contracted for by or for the account of the United States during the period, beginning January 1, 1941, and ending with September 2, 1945; or

(2) which, having been constructed during the period beginning September 3, 1939, and ending with September 2, 1945, was acquired by the United States during such period.

(c) "Prewar domestic cost", as applied to any type of vessel, means the amount determined by the Secretary, and published by the Secretary in the Federal Register, to be the amount for which a standard vessel of such type could have been constructed (without its national defense features) in the United States under normal conditions relating to labor, materials, and other elements of cost, obtaining on or about January 1, 1941. In no case shall the prewar domestic cost of any type of vessel be considered to be greater than 80 percentum of the domestic war cost of vessels of the same type.

(d) "Statutory sales price", as applied to a particular vessel, means, in the case of a dry-cargo vessel, an amount equal to 50 per centum of the prewar domestic cost of that type of vessel, and in the case of a tanker, such term means an amount equal to 87½ per centum of the prewar domestic cost of a tanker of that type, such amount in each case being adjusted as follows:

(1) If the Secretary is of the opinion that the vessel is not in class, there shall be subtracted the amount estimated by the Secretary as the cost of putting the vessel in class.

(2) If the Secretary is of the opinion that the vessel lacks desirable features which are incorporated in the standard vessel used for the purpose of determining prewar domestic cost, and that the statutory sales price (unadjusted) would be lower if the standard vessel had also lacked such features, there shall be subtracted the amount estimated by the Secretary as the amount of such resulting difference in statutory sales price.

(3) If the Secretary is of the opinion that the vessel contains desirable features which are not incorporated in the standard vessel used for the purpose of determining prewar domestic cost, and that the statutory sales price (unadjusted) would be higher if the standard vessel had also contained such features, there shall be added the amount estimated by the Secretary as the amount of such resulting difference in statutory sales price.

(4) There shall be subtracted, as representing normal depreciation, an amount computed by applying to the statutory sales price (determined without regard to this paragraph) the rate of 5 per centum per annum for the period beginning with the date of the original delivery of the vessel by its builder and ending with the date of sale or charter to the applicant in question, and there shall also be subtracted an amount computed by applying to the statutory sales price (determined without regard to this paragraph) such rate not in excess of 3 per centum per annum in the case of a vessel other than a tanker, and not in excess of 4 per centum per annum in the case of a tanker, for such period or periods of war service as the Secretary determines will make reasonable allowance for excessive wear and tear by reason of war service which cannot be or has not been otherwise compensated for under this subsection.

No adjustment, except in respect of passenger vessels constructed before January 1, 1941, shall be made under this Act [sections 1735 to 1738 and 1739 to 1745, and 1746 of this Appendix] which will result in a statutory sales price which (1) in the case of dry-cargo vessels (except Liberty type vessels) will be less

than 35 per centum of the domestic war cost of vessels of the same type, (2) in the case of any Liberty type vessel will be less than 31½ per centum of the domestic war cost of vessels of such type, or (3) in the case of a tanker will be less than 50 per centum of the domestic war cost of tankers of the same type. For the purposes of this Act [said sections], except section 5 [section 1738 of this Appendix], all Liberty vessels shall be considered to be vessels of one and the same type.

(e) "Domestic war cost" as applied to any type of vessel means the average construction cost (without national defense features) as determined by the Secretary, of vessels of such type delivered during the calendar year 1944, except in case of any type of vessel the principal deliveries of which were made after the calendar year 1944, there shall be used in lieu of such year 1944 such period of not less than six consecutive calendar months as the Secretary shall find to be most representative of war production costs of such type.

(f) "Cessation of hostilities" means the date proclaimed by the President as the date of the cessation of hostilities in the present war, or the date so specified in a concurrent resolution of the two Houses of the Congress, whichever is the earlier.

(g) "Citizen of the United States" includes a corporation, partnership, or association only if it is a citizen of the United States within the meaning of section 2 of the Shipping Act of 1916, as amended [sections 802 and 803 of Title 46]. The term "affiliated interest" as used in sections 9 and 10 of this Act [sections 1742 and 1743 of this Appendix] includes any person affiliated or associated with a citizen applicant for benefits under this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] who the Secretary, pursuant to rules and regulations prescribed hereunder, determines should be so included in order to carry out the policy and purposes of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix]. (Mar. 8, 1946, ch. 82, § 3, 60 Stat. 41; 1950 Reorg. Plan No. 21, §§ 204, 306, eff. May 24, 1950, 15 F.R. 3178, 64 Stat. 1276, 1277.)

(a) Any citizen of the United States may make application to the Secretary to purchase a war-built vessel, under the jurisdiction and control of the Secretary, at the statutory sales price. If the Secretary determines that the applicant possesses the ability, experience, financial resources, and other qualifications, necessary to enable him to operate and maintain the vessel under normal competitive conditions, and that such sale will aid in carrying out the policies of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix], the Secretary shall sell such vessel to the applicant at the statutory sales price.

(b) At the time of sale, the purchaser shall pay to the Secretary at least 25 per centum of the statutory sales price. The balance of the statutory sales price shall be payable in not more than twenty-five equal annual installments, with interest on the portion of the statutory sales price remaining unpaid, at the rate of 3½ per centum per annum, or shall be payable under such other amortization provisions which permit the purchaser to accelerate payment of the unpaid balance as the Secretary deems satisfactory. The obligation of the purchaser with respect to payment of such unpaid balance with interest shall be secured by a preferred mortgage on the vessel sold.

(c) The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price, shall not restrict the lawful or proper use or operation of the vessel. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1735, 1736, 1738, 1739 to 1745, and 1746 of this Appendix.

§ 1738. Charter of vessels.

(a) To citizens; publication of domestic prewar cost.

Any citizen of the United States and, until July 4, 1946, any citizen of the Commonwealth of the Philippines, may make application to the Secretary to charter a war-built dry-cargo vessel, under the jurisdiction and control of the Secretary for bare-boat use. The Secretary may, in his discretion, either reject or approve the application, but shall not so approve unless in his opinion the chartering of such vessel to the applicant would be consistent with the policies of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] No vessel shall be chartered under this section until sixty days after publication of the applicable prewar domestic cost in the Federal Register under subsection 3(c) of this Act [section 1736(c) of this Appendix].

(b) Rate of charter hire.

The charter hire for any vessel chartered under the provisions of this section shall be fixed by the Secretary at such rate as the Secretary determines to be consistent with the policies of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix]. Except in the case of vessels having passenger accommodations for not less than eighty passengers rates of charter hire fixed by the Secretary on any war-built vessel which differ from the rate specified in this subsection shall not be less than the prevailing world market charter rates for similar vessels for similar use as determined by the Secretary.

(c) Laws applicable to charter hire.

The provisions of sections 708, 709, 710, 712, and 713 of the Merchant Marine Act, 1936, as amended [sections 1198 to 1200, 1202, and 1203 of Title 46], shall be applicable to charters made under this section.

(d) Computation of charter hire where engaged in both foreign and domestic trade.

When an operator is engaged both in the foreign trade and in the domestic trade (coastwise or intercoastal), additional charter hire determined with reference to voyage profits of the chartered vessels, under regulations promulgated by the Secretary, shall be computed, accounted for, and paid separately on such foreign trade and shall be computed, accounted for, and paid separately on such domestic trade, covering all voyages commencing subsequent to June 30, 1947.

(e) Proceedings and findings; extension of charters.

(1) Notwithstanding the provisions of sections 11 and 14 of this Act, as amended [sections 1744 and 1735 note of this Appendix], war-built dry-cargo vessels owned by the United States on or after June 30, 1950, may be chartered pursuant to this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] for bareboat use in any service which, in the opinion of the Federal Maritime Board, is required in the public interest and is not adequately served, and for which privately owned American flag vessels are not available for charter by private operators on reasonable conditions and at reasonable rates for use in such service. No charters shall be made by the Secretary of Commerce under authority of this subsection until the Federal Maritime Board shall have given due notice to all interested parties and shall have afforded such parties an opportunity for a public hearing on such charters and shall have certified its findings to the Secretary of Commerce. The Secretary of Commerce is authorized to include in such charters such restrictions and conditions as the Federal Maritime Board determines to be necessary or appropriate to protect the public interest in respect of such charters and to protect privately owned vessels against competition from vessels chartered under this section: *Provided, however,* That all such charters shall contain a provision that they will be reviewed annually by the Federal Maritime Board, with recommendations to the Secretary of Commerce, for the purpose of determining whether conditions exist justifying continuance of the charters under the provisions of this subsection.

(2) A charter existing on June 30, 1950, with respect to a war-built dry-cargo vessel may be extended to October 31, 1950, if application is made within ten days after the enactment hereof [June 30, 1950] for the charter of such vessel under this subsection and if the Secretary of Commerce deems such extension is justified in accordance with the provisions of subdivision (1) of this subsection: *Provided, however,* That a new voyage under such extended charter shall not be begun after October 31, 1950, unless it has been determined prior to such date, in accordance with the procedure set forth in this subsection, that the continued use of the vessel in the service is required. The Federal Maritime Board shall conduct all hearings on applications made under this paragraph immediately upon receipt thereof and shall promptly certify its findings to the Secretary of Commerce, provided that all such certifications shall be made not later than October 31, 1950.

(f) Charter of passenger vessels.

(1) Notwithstanding the provisions of sections 11 and 14 of this Act, as amended [sections 1744 and 1735 note of this Appendix], the Secretary of Commerce may charter any passenger vessel, whether or not war-built, owned by the United States on or after June 30, 1950, pursuant to title VII of the Merchant Marine Act, 1936, as amended [subchapter VII of chapter 27 of Title 46], and may charter any war-built passenger vessel owned by the United States for use in the domestic trade of the United States, under the conditions prescribed for the charter of war-built cargo vessels in subsection (e) of this section.

(2) Charters existing on June 30, 1950, with respect to passenger vessels may be continued until December 31, 1951, or until expiration thereof by the terms of their provisions. (Mar. 8, 1946, ch. 82, § 5, 60 Stat. 43; June 28, 1947, ch. 161, § 2, 61 Stat. 191; 1950 Reorg. Plan No. 21, §§ 204, 306, eff. May 24, 1950, 15 F. § 1739. Sale of vessels to non-citizens; conditions; priority of mortgage on unpaid balance.

(a) Any person not a citizen of the United States may make application to the Secretary to purchase a war-built vessel (other than a P-2 type or other passenger type and other than a Liberty type collier or tanker), under the jurisdiction and control of the Secretary. If the Secretary determines—

(1) that the applicant has the financial resources, ability, and experience necessary to enable him to fulfill all obligations with respect to payment of any deferred portion of the purchase price, and that sale of the vessel to him would not be inconsistent with any policy of the United States in permitting foreign sales under section 9 of the Shipping Act, 1916, as amended [section 808 of Title 46]; and

(2) after consultation with the Secretary of the Navy, that such vessel is not necessary to the defense of the United States; and

(3) that such vessel is not necessary to the promotion and maintenance of an American merchant marine described in section 2 [section 1735 of this Appendix]; and

(4) that for a reasonable period of time, which in the case of tankers and "C" type vessels shall not end before ninety days after publication of the applicable prewar domestic cost in the Federal Register under subsection 3(c) of this Act [section 1736(c) of this Appendix], such vessel has been available for sale at the statutory sales price to citizens of the United States, or for charter under section 5 [section 1738 of this Appendix] to citizens of the United States, and that no responsible offer has been made by a citizen of the United States to purchase or charter such vessel;

then the Secretary is authorized to approve the application and sell such vessel to the applicant at not less than the statutory sales price. In case of application submitted by a citizen of the Commonwealth of the Philippines, paragraph (4) of this subsection shall not apply. Notwithstanding paragraph (4) of this subsection, not to exceed ten "C" type vessels, except C-3's, may be sold to noncitizens at any time after such date of publication at not less than the statutory sales price.

(b) Notwithstanding any other provision of law, no war-built vessel shall be sold to any person not a citizen of the United States, except in accordance with subsection (a) of this section, or upon terms or conditions more favorable than those at which such war-built vessel is offered to a citizen of the United States, but where the vessel so sold is being transferred to foreign register and flag, the mortgage securing the unpaid balance of the purchase price and interest thereon shall contain provisions according to such mortgage the priorities over other liens and encumbrances accorded such mortgages on merchant vessels under the laws of such registry and flag. (Mar. 8, 1946, ch. 82, § 6, 60 Stat. 43; 1950 Reorg. Plan No. 21, §§ 204, 306, eff. May 24, 1950, 15 F. R. 3178, 64 Stat. 1276, 1277.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1735 to 1738, 1740 to 1745, and 1746 of this Appendix.

§ 1740. Order of preference in sales and charters; determination; operation of commercial vessels by Government.

(a) In exercising its powers under this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] and under other provisions of law with respect to the sale and charter of war-built vessels, the Secretary shall give preference to citizen applicants over noncitizen applicants, and as between citizen applicants to purchase or between citizen applicants charter, shall, so far as practicable and consistent with the policies of this Act [said sections], give preference to citizen applicants to purchase. In determining the order of preference between citizen applicants to purchase or between citizen applicants to charter, the Secretary shall consider, among other relevant factors, the extent to which losses and requisitions of the applicant's prewar tonnage have been overcome and shall in all cases, in the sale and charter of a war-built vessel, give preference in such sale or charter, as the case may be, to the former owner of such vessel, or to the person for whom the vessel was constructed but to whom delivery thereof was prevented by the United States. In determining the order of preference between noncitizen applicants to purchase, the Secretary shall give preference to citizens of the Commonwealth of the Philippines, and in determining the order of preference between other noncitizen applicants to purchase shall consider the extent to which losses in prewar tonnage of the various member nations of the United Nations, incurred in the interests of the war effort, have been overcome, and the relative effects of such losses upon the national economy of such member nations.

(b) After the cessation of hostilities, operation of vessels in commercial service by the United States, either for its own account or through operating agents under agency agreements, shall, except as to the Panama Canal Company and other services specifically authorized by law, be continued only to the extent necessary to effect orderly transfer of vessels to private operation. (Mar. 8, 1946, ch. 82, § 7, 60 Stat. 44; 1950 Reorg. Plan No. 21, §§ 204, 306, eff. May 24, 1950, 15 F. R. 3178, 64 Stat. 1276, 1277; Sept. 26, 1950, ch. 1049, § 2 (a) (2), 64 Stat. 1038.)

TRANSFER OF FUNCTIONS

"Secretary" (meaning Secretary of Commerce) was substituted for "Commission" (meaning United States Maritime Commission) on authority of 1950 Reorg. Plan No. 21, set out in the Appendix to Title 5, Government Organization and Employees.

All executive and administrative functions of the United States Maritime Commission were transferred to the Chairman thereof by 1949 Reorg. Plan No. 6, eff. Aug. 19, 1949, 14 F.R. 5228, 63 Stat. 1069.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1735 to 1738, 1739, to 1745, and 1746 of this Appendix.

§ 1741. Exchange of vessels.

(a) Allowance as credit on purchase price; vessels acceptable.

The Secretary is authorized to acquire, in exchange for an allowance of a credit on the purchase of any war-built vessel under section 4 [section 1737 of this Appendix] or any vessel acquired through exchange under subsection (d) of this section—

(1) Any vessel owned by a citizen of the United States, other than a vessel purchased under this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix]; or

(2) Any vessel owned by a foreign corporation, if—

(A) the vessel was constructed in the United States, and has, after December 7, 1941, been chartered to, or otherwise taken for use by, the United States; and

(B) the controlling interest in such corporation is, at the time of acquisition of such vessel hereunder, owned by a citizen or citizens of the United States, and has been so owned for a period of at least three years immediately prior to such acquisition; and

(C) such corporation agrees that the war-built vessel purchased with the use of such credit shall be owned by such citizen or citizens and shall be documented under the laws of the United States.

Such allowance shall not be applied upon the cash payment required under section 4 [section 1737 of this Appendix]. A war-built vessel shall be deemed a "new vessel" for the purpose of section 511 of the Merchant Marine Act, 1936, as amended [section 1161 of Title 46], and section 510 (e) of such Act [section 1160(e) of Title 46] shall be applicable with respect to vessels exchanged under this section to the same extent as applicable to obsolete vessels exchanged under section 510 of such Act [section 1160 of Title 46].

(b) Amount of allowance.

(1) If, prior to December 31, 1946, the owner of a vessel eligible for exchange under subsection (a) of this section makes a firm offer binding for at least ninety days, to transfer the vessel to the Commission in exchange for an allowance of credit provided in subsection (a) of this section, the amount of such allowance shall be the fair and reasonable value of the vessel as determined by the Commission under this section. In making such determination the Commission shall consider: (A) The value of the vessel determined in accordance with the standards of valuation established pursuant to Executive Order 9387 (8 F. R. 14105) as of the date of such offer, (B) any liability of the United States for repair and restoration of the vessel, (C) the utility value of the vessel, (D) the effect of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix] upon the market value of such vessel, and (E) the public interest in promoting exchanges of vessels as a means of rehabilitating and modernizing the American merchant marine. In no event shall the amount of such allowance, in case of dry cargo vessels and tankers, exceed (A) (1) if the vessel or vessels tendered in exchange are of equal or greater dead-weight tonnage than the war-built

vessel or vessels being acquired, 33⅓ per centum of the statutory sales price (unadjusted) of the war-built vessel or vessels, or (2) if the vessel or vessels tendered in exchange are of lesser dead-weight tonnage than the war-built vessel or vessels, such proportionate part of 33⅓ per centum of the statutory sales price (unadjusted) of such war-built vessel or vessels as the dead-weight tonnage of such vessel or vessels tendered in exchange bear to the dead-weight tonnage of such war-built vessel or vessels, or (B) the liability of the United States in connection with the repair or restoration of such vessel under any charter to which the United States is a party, whichever is higher. In the case of passenger vessels tendered in exchange, the amount of the allowance shall not exceed the percentages of statutory sales price computed under (A) (1) and (2) above by gross tons instead of dead-weight tons, or such liability for the repair or restoration of such passenger vessel, whichever is the higher. In any case where the vessel tendered in exchange was acquired from the United States, the exchange allowance under this section shall not exceed the price paid the United States therefor plus the depreciated cost of any improvements thereon. In the case of any vessel tendered in exchange which has been restored to condition by the United States for the purpose of redelivering such vessel to its owner in compliance with the charter of such vessel with the United States, or where, for such restoration a cash allowance has been made to the owner, there shall be deducted from the amount of the allowance of credit for such vessel determined by the Commission under this section, an amount equal to the liability of the United States for such restoration or such cash allowance made to the owner.

(2) If, after such offer is made, and prior to its acceptance, or prior to the acquisition of the vessel, by the Commission, the vessel is lost by reason of causes for which the United States is responsible, then in lieu of paying the owner any amount on account of such loss, the offer shall, for the purposes of subsection (a) of this section and this subsection, be considered as having been accepted and the vessel as having been acquired by the Commission under said subsection (a) immediately prior to such loss.

(c) Transfers in settlement of claims.

The Secretary is also authorized to make available any war-built vessel for transfer in complete or partial settlement of any claim against the United States (1) for just compensation upon requisition for title of any vessel, or (2) for indemnity for the loss of any vessel which was acquired for use by the United States, but only to the extent such vessel is available for sale to the claimant.

(d) Transfer of substitute vessels.

In the case of any vessel constructed in the United States after January 1, 1937, which has been taken by the United States for use in any manner, the Secretary, if in his opinion the transfer would aid in carrying out the policies of this Act [sections 1735 to 1738, 1739 to 1745, and 1746 of this Appendix], is authorized to transfer to the owner of such vessel another vessel which is deemed by the Secretary to be of comparable type with adjustments for depreciation and difference in design or speed, and to the extent applicable, adjustments with respect to the retained vessel as provided for in section 9 [section 1742 of this Appendix], and such other adjustments and terms and conditions, including transfer of mortgage obligations in favor of the United States binding upon the old vessel, as the Secretary may prescribe. (Mar. 8, 1946, ch. 82, § 8, 60 Stat. 45; 1950 Reorg. Plan No. 21, §§ 204, 306, eff. May 24, 1950, 15 F. R. 3178, 64 Stat. 1276, 1277.)

TRANSFER OF FUNCTIONS

"Secretary" (meaning Secretary of Commerce) was substituted for "Commission" (meaning United States Maritime Commission), except where otherwise indicated by the context, on authority of 1950 Reorg. Plan No. 21, set out in the Appendix to Title 5, Government Organization and Employees.

All executive and administrative functions of the United States Maritime Commission were transferred to the Chairman thereof by 1949 Reorg. Plan No. 6, eff. Aug. 19, 1949, 14 F.R. 5228, 63 Stat. 1069.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1735 to 1738, 1739, 1740, 1742 to 1745, and 1746 of this Appendix.

§ 1742. Price adjustment on prior sales to citizens.

(a) Form, manner, and time of application.

A citizen of the United States who on the date of the enactment of this Act [March 8, 1946]—

(1) owns a vessel which he purchased from the Commission prior to such date, and which was delivered by its builder after December 31, 1940; or

(2) is party to a contract with the Commission to purchase from the Commission a vessel, which has not yet been delivered to him; or

(3) owns a vessel on account of which a construction-differential subsidy was paid, or agreed to be paid, by the Commission under section 504 of the Merchant Marine Act, 1936, as amended [section 1154 of Title 46], and which was delivered by its builder after December 31, 1940; or

(4) is party to a contract with a shipbuilder for the construction for him of a vessel, which has not yet been delivered to him, and on account of which a construction-differential subsidy was agreed, prior to such date, to be paid by the Commission under section 504 of the Merchant Marine Act, 1936, as amended [section 1154 of Title 46],

shall, except as hereinafter provided, be entitled to an adjustment in the price of such vessel under this section if he makes application therefor, in such form and manner as the Commission may prescribe, within sixty days after the date of publication of the applicable prewar domestic costs in the Federal Register under section 3 (c) of this Act [section 1736 (c) of this Appendix]. No adjustment shall be made under this section in respect of any vessel the contract for the construction of which was made after September 2, 1945, under the provisions of title V [subchapter V of chapter 27 of Title 46] (including section 504 [section 1154 of Title 46]) or title VII of the Merchant Marine Act, 1936, as amended [subchapter VII of chapter 27 of Title 46].

(b) Determination of amount.

Such adjustment shall be made, as hereinafter provided, by treating the vessel as if it were being sold to the applicant on the date of the enactment of this Act [March 8, 1946], and not before that

time. The amount of such adjustment shall be determined as follows:

(1) The Commission shall credit the applicant with the excess of the cash payments made upon the original purchase price of the vessel over 25 per centum of the statutory sales price of the vessel as of such date of enactment [March 8, 1946]. If such payment was less than 25 per centum of the statutory sales price of the vessel, the applicant shall pay the difference to the Commission.

(2) The applicant's indebtedness under any mortgage to the United States with respect to the vessel shall be adjusted.

(3) The adjusted mortgage indebtedness shall be in an amount equal to the excess of the statutory sales price of the vessel as of the date of the enactment of this Act [March 8, 1946] over the sum of the cash payment retained by the United States under paragraph (1) plus the readjusted trade-in allowance (determined under paragraph (7)) with respect to any vessel exchanged by the applicant on the original purchase. The adjusted mortgage indebtedness shall be payable in equal annual installments thereafter during the remaining life of such mortgage with interest on the portion of the statutory sales price remaining unpaid at the rate of 3½ per centum per annum.

(4) The Commission shall credit the applicant with the excess, if any, of the sum of the cash payments made by the applicant upon the original purchase price of the vessel plus the readjusted trade-in allowance (determined under paragraph (7)) over the statutory sales price of the vessel as of the date of the enactment of this Act [March 8, 1946] to the extent not credited under paragraph (1).

(5) The Commission shall also credit the applicant with an amount equal to interest at the rate of 3½ per centum per annum (for the period beginning with the date of the original delivery of the vessel to the applicant and ending with the date of the enactment of this Act [March 8, 1946]) on the excess of the original purchase price of the vessel over the amount of any allowance allowed by the Commission on the exchange of any vessel on such purchase; the amount of such credit first being reduced by any interest on the original mortgage indebtedness accrued up to such date of enactment and unpaid. Interest so accrued and unpaid shall be canceled.

(6) The applicant shall credit the Commission with all amounts paid by the United States to him as charter hire for use of the vessel (exclusive of service, if any, required under the terms of the charter) under any charter party made prior to the date of the enactment of this Act [March 8, 1946], and any charter hire for such use accrued up to such date of enactment and unpaid shall be canceled; and the Commission shall credit the applicant with the amount that would have been paid by the United States to the applicant as charter hire for bare-boat use of vessels exchanged by the applicant on the original purchase (for the period beginning with date on which the vessels so exchanged were delivered to the Commission and ending with the date of the enactment of this Act [March 8, 1946]).

(7) The allowance made to the applicant on any vessel exchanged by him on the original purchase shall be readjusted so as to limit such allowance to the amount provided for under section 8 [section 1741 of this Appendix].

(8) There shall be subtracted from the sum of the credits in favor of the Commission under the foregoing provisions of this subsection the amount of any overpayments of Federal taxes by the applicant resulting from the application of subsection (c)(1) of this section, and there shall be subtracted from the sum of the credits in favor of the applicant under the foregoing provisions of this subsection the amount of any deficiencies in Federal taxes of the applicant resulting from the application of subsection (c)(1) of this section. If, after making such subtractions, the sum of the credits in favor of the applicant exceeds the sum of the credits in favor of the Commission, such excess shall be paid by the Commission to the applicant. If, after making such subtractions, the sum of the credits in favor of the Commission exceeds the sum of the credits in favor of the applicant, such excess shall be paid by the applicant to the Commission. Upon such payment by the Commission or the applicant, such overpayments shall be treated as having been refunded and such deficiencies as having been paid.

For the purposes of this subsection, the purchase price of a vessel on account of which a construction-differential subsidy was paid or agreed to be paid under section 504 of the Merchant Marine Act, 1936, as amended [section 1154 of Title 46], shall be the net cost of the vessel to the owner.

(c) Conditions binding on applicant.

An adjustment shall be made under this section only if the applicant enters into an agreement with the Commission binding upon the citizen applicant and any affiliated interest to the effect that—

(1) depreciation and amortization allowed or allowable with respect to the vessel up to the date of the enactment of this Act [March 8, 1946] for Federal tax purposes shall be treated as not having been allowable; amounts credited to the Commission under subsection (b)(6) of this section shall be treated for Federal tax purposes as not having been received or accrued as income; amounts credited to the applicant under subsection (b)(5) and (6) of this section shall be treated for Federal tax purposes as having been received and accrued as income in the taxable year in which falls the date of the enactment of this Act (March 8, 1946);

(2) the liability of the United States for use (exclusive of service, if any, required under the terms of the charter) of the vessel on or after the date of the enactment of this Act [March 8, 1946] under any charter party shall not exceed 15 per centum per annum of the statutory sales price of the vessel as of such date of enactment [March 8,

1946] and the liability of the United States under any such charter party for loss of the vessel shall be determined on the basis of the statutory sales price as of the date of the enactment of this Act [March 8, 1946], depreciated to the date of loss at the rate of 5 per centum per annum: *Provided*, That the provisions of this subsection (c)(2) [of this section] shall not apply to any such charter party executed on or after the date of enactment of this amendatory proviso [August 6, 1956]; and the Secretary of Commerce is directed to modify any adjustment agreement to the extent necessary to conform to the provisions of this amendatory proviso; and

(3) in the event the United States, prior to the termination of the existing national emergency declared by the President on May 27, 1941, uses such vessel pursuant to a taking, or pursuant to a bare-boat charter made, on or after the date of the enactment of this Act [March 8, 1946], the compensation to be paid to the purchaser, his receivers, and trustees, shall in no event be greater than 15 per centum per annum of the statutory sales price as of such date.

(d) Applicability of other laws.

Section 506 of the Merchant Marine Act, 1936, as amended [section 1156 of Title 46], shall not apply with respect to (1) any vessel which is eligible for an adjustment under this section, or (2) any vessel described in clause (1), (2), (3), or (4) of subsection (a) of this section, the contract for the construction of which is made after September 2, 1945, and prior to the date of enactment of this Act [March 8, 1946]. (Mar. 8, 1946, ch. 82, § 9, 60 Stat. 46; Aug. 6, 1956, ch. 1013, 70 Stat. 1068.)

AMENDMENTS

"[SEC. 1. *Conditions; limitations on amount*]. That the Foreign Claims Settlement Commission (hereafter in this Act referred to as the "Commission") shall provide, out of funds appropriated pursuant to this Act, for the payment of the unpaid balance of awards heretofore made by the Philippine War Damage Commission under title I of the Philippine Rehabilitation Act of 1946 [former sections 1751—1763 of this Appendix]. No payment shall be made under this Act to any person, or to his successors in interest, on account of any award unless payment was made on such award under the Philippine Rehabilitation Act of 1946 [former sections 1751—1806 of this Appendix], and the maximum amount paid under this Act, when added to amounts paid under the Philippine Rehabilitation Act of 1946 [former sections 1751—1806 of this Appendix] and section 7 of the War Claims Act of 1948 [section 2006 of this Appendix] on account of any claim shall not exceed the aggregate amount of claims approved in favor of such claimant after reduction under the last proviso of section 102(a) of the Philippine Rehabilitation Act of 1946 [former section 1752(a) of this Appendix], or $25,000, whichever is the lesser. All payments under this Act in amounts over 25,000 pesos or equivalent value in dollars shall be subject to the provisions of section 104(c) of the Philippine Rehabilitation Act of 1946 [former section 1754(c) of this Appendix].

"SEC. 2. [*Applications; commencement and duration of period; determination of Commission*]. Within sixty days after the enactment of this Act [Aug. 30, 1962], or of legislation appropriating for administration expenses incurred in carrying out this Act, whichever is later, the Commission shall prescribe and publish in the Federal Register and give appropriate publicity in the Republic of the Philippines concerning the period, not in excess of twelve additional months, within which application must be filed under this Act. The Commission shall complete its determination and take final action with respect to applications filed under this Act not later than one year after the last date on which applications may be filed.

"SEC. 3. [*Publicity to payments provisions; notice to claimants*]. The Commission shall give maximum publicity in the Republic of the Philippines to the provisions of this Act, and through utilization of the records of the former Philippine War Damage Commission shall attempt to notify individual claimants of their right to file applications for payment under this Act, by mailing notice thereof to the last known address of such claimants as shown by such records.

"SEC. 4. [*Notice of approval or denial of applications; hearings; finality of determinations*]. The Commission shall notify all applicants of the approval or denial of their applications and, if approved, shall notify such applicants of the amount for which such applications are approved. Any applicant whose application is denied, or is approved for less than the amount of such application, shall be entitled, under such regulations as the Commission may prescribe, to a hearing before the Commission or its representative with respect to such application. Upon such hearing, the Commission may affirm, modify, or reverse its former action with respect to such application, including a denial or reduction in the amount of award theretofore approved. All findings of the Commission concerning the persons to whom compensation pursuant to this Act is payable, and the amounts thereof, shall be conclusive and not be reviewable by any court.

"SEC. 5. [*Payments; exchange rate; medium; extraterritorial claimants; purchasers of claims; Educational Programs Fund; reversion of funds to United States Treasury*]. (a) Each award made under this Act shall be certified to the Secretary of the Treasury in terms of United States currency on the basis of the rate of exchange (that is, P/2 equals $1) which was applied in the Philippine Rehabilitation Act of 1946 [former sections 1751—1806 of this Appendix], for payment out of sums appropriated pursuant to section 8 of this Act. Such payments shall be made in accordance with such regulations as the Secretary of the Treasury may prescribe. Payments authorized under this Act shall be made in United States dollars or in Philippine pesos at the option of the Secretary of the Treasury; however, notwithstanding the last sentence of the first section of this Act, payment shall not be made outside of the Republic of the Philippines to any claimant residing outside the Republic of the Philippines unless he establishes to the satisfaction of the Commission that since the date of the loss or damage on account of which the original award was made he has heretofore invested in such manner as furthered the rehabilitation or economic development of the Philippines an amount not less than the claims approved in his favor after reduction under the last proviso of section 102(a) of the Philippine Rehabilitation Act of 1946 [former section 1752(a) of this Appendix]. Any balance of the appropriation made pursuant to section 8 remaining after the payments authorized by the first section of this Act have been made and after any administrative expenses incurred by the Commission in connection with such payments have been paid shall be paid into a special fund in the United States Treasury to be used for the purpose of furthering educational exchange and other educational programs to the mutual advantage of the Republic of the Philippines and the United States in such manner as the Presidents of those two Republics shall from time to time determine. There shall be withheld from the payment authorized by the preceding sentence a sum equal to the difference between $73,000,000 (less administrative expenses) and the total amount which would have been paid to the claimants under the provisions of Public Law 87-616, which sum shall revert to the general funds in the United States Treasury. The acceptance by any claimant of a payment under this Act shall be considered to be in full satisfaction and final settlement of all claims of such claimant arising out of awards for war damage compensation made by the Philippine War Damage Commission. Payment shall not be made under this Act on any claim filed under the Philippine Rehabilitation Act of 1946 [former sections 1751—1806 of this Appendix] or under this Act which was acquired from a predecessor in interest by purchase, except where such purchase was in the ordinary course of business in connection with the acquisition of all assets of a business firm.

"(b) Such of the records of the Philippine War Damage Commission as the Foreign Claims Settlement Commission may deem necessary for carrying out its functions under this Act shall be transferred to the Foreign Claims Settlement Commission.

"SEC. 6. [*Remuneration for services to applicants; prohibition against certain payments; penalties; forfeitures; recovery of payments*]. (a) The total remuneration on account of services rendered or to be rendered to or on behalf of any applicant in connection with any application filed under this Act shall not exceed 5 per centum of the amount paid by the Commission on account of such application. Any agreement to the contrary shall be unlawful and void. Whoever, subject to the jurisdiction of the United States, violates this subsection shall be fined not more than $5,000 or imprisoned for not more than one year, or both. Where any payment is made in violation of this subsection, the Commission shall take such action as may be appropriate to recover the same.

"(b) Notwithstanding the provisions of subsection (a), no sum shall be paid by any claimant directly or indirectly to, or received or accepted by, any former commissioner or employee of the Philippine War Damage Commission or their assigns, or any person employed by or associated with any such former commissioner or employee in connection with the preparation, filing, allowance, or collection of any claim under this Act, as compensation on account of services rendered or as reimbursement on account of expenses incurred in connection with any application filed under this Act. Whoever, subject to the jurisdiction of the United States, makes a payment in violation of the provisions of this subsection shall be fined not more than $5,000 or imprisoned for not more than one year or both. Whoever, subject to the jurisdiction of the United States, receives or accepts a payment in violation of this subsection, shall be fined not more than $5,000 or imprisoned for not more than five years or both. Whoever, subject to

the jurisdiction of the United States, receives or accepts a payment in violation of this subsection, shall forfeit to the Government of the United States a sum equal to three times the amount of such payment, and the Commission shall take action to recover such sum from the person receiving the payment.

"SEC. 7. [*Application of International Claims Settlement Act of 1949*]. For the purposes of carrying out this Act, the following provisions of the International Claims Settlement Act of 1949 [section 1621 et seq. of Title 22] shall, to the extent not inconsistent with this Act, be applicable in the administration of this Act: Subsections (c), (d), (e), and (i) of section 4 [section 1623 of Title 22]: subsections (d) and (e) of section 7 [section 1626 of Title 22]; and subsection (c) of section 7 [section 1626 of Title 22] except that with respect to applicants not subject to the jurisdiction of the United States, references in such subsection (c) to the Comptroller General of the United States shall be deemed to refer to the Secretary of the Treasury.

"SEC. 8. [*Appropriations for payment of awards and administrative expenses*]. There is authorized to be appropriated not more than $73,000,000 to make payments on awards certified pursuant to this Act, plus such additional sums as may be necessary for the administrative expenses of the Commission and of the Secretary of the Treasury in carrying out this Act."

§ 1941e. Disposal procedure.

(a) Invitation of purchase proposals; notice and advertisement; period for receipt of proposals; date to accompany proposals.

The Commission shall invite, upon adequate notice and advertisement, proposals for the purchase of the Government-owned rubber-producing facilities, hereafter referred to as the "facilities". The period for the receipt of proposals shall be determined and publicly announced by the Commission, and in no event shall be less than six months after the first day on which proposals may be received pursuant to the advertisement. The advertisement shall be in such form, contain such specifications and reservations, and be published in such manner as the Commission in its discretion determines will best effectuate the purposes of this Act [sections 1941 to 1941y of this Appendix]. All data concerning such facilities which in the judgment of the Commission may be reasonably required for the submission of a bona fide proposal shall be furnished by the Commission upon request by any prospective purchaser unless the Commission has reason to believe that such prospective purchaser has not identified his principal, or is not financially responsible, or is a poor security risk.

(b) Form and contents of proposals.

Proposals shall be in writing, and shall contain, among other things—

(1) identification of the person in whose behalf the proposal is submitted, including the business affiliation of such person;

(2) the facility or facilities which are proposed to be purchased, and the order of preference if more than one facility is proposed to be purchased; or the order of preference if proposals are submitted on more than one facility, if only one facility is proposed to be purchased;

(3) the arrangements or plans, if any, formal or informal, for the supply of feedstock to, and the disposition of the end products of, the respective facilities proposed to be purchased;

(4) the amount proposed to be paid for each of the facilities, and, if such amount is not to be paid in cash, then the principal terms of the financing arrangement proposed;

(5) the general terms and conditions which the prospective purchaser of a copolymer facility would be willing to accept in order to make the end product of such facility available for sale to small business enterprises, and the general terms and conditions which the prospective purchaser of a butadiene or styrene facility would be willing to accept in order to make the end product of such facility available for sale to purchasers of copolymer facilities; and

(6) such other information as the Commission in its notice and advertisement for proposals shall require be set forth in proposals including the prospective purchaser's acceptance of the terms, conditions, restrictions and reservations contained in subsection (h) of this section, and the interest rate to be charged on the purchase-money mortgage referred to in subsection (e) of this section.

(c) Disclosure of contents of proposals.

Should it become necessary to the effective prosecution of the disposal program, the Commission may, after the termination of the period for the submission of proposals provided for in subsection (a) of this section, disclose the contents of the proposals at such time, in such manner, and to such extent as it deems appropriate.

(d) Deposit of cash or Government bonds to accompany proposals.

Proposals shall be accompanied by a deposit of cash or United States Government bonds of face amount equal to 2½ per centum of the gross amount proposed to be paid but not exceeding $250,000 for each facility: *Provided, however,* That the deposit required in the case of a proposal for one of a number of facilities on an alternative basis shall be the same as would be required if such proposal were for only the facility for which the particular prospective purchaser proposed to pay the highest amount. Except in the case of purchasers, deposits made hereunder shall be refunded without interest and not later than upon the termination of the period for congressional review as provided in section 9 of this Act [section 1941g of this title]. In the case of purchasers, deposits made hereunder shall be applied without interest to the purchase price: *Provided, however,* That upon the closing of the contract of sale the purchaser shall be required to substitute cash equal to the face amount of the Government bonds then held in connection with such purchaser's proposal.

(e) Payment of purchase price; amount and terms of mortgages.

Payment of the purchase price may be made in part by a first lien purchase-money mortgage, in an amount not to exceed 75 per centum of the purchase price. The terms of any such mortgage obligation, to be determined by negotiation, shall provide among other things for a maturity of not more than ten years, periodic amortization, and a uniform interest rate of not less than 3 per centum per annum.

(f) Negotiation with those submitting proposals.

Promptly after the termination of the period for the receipt of proposals, pursuant to subsection (a) of this section, and for such period thereafter not less than seven months as may be determined and publicly announced by the Commission, it shall negotiate with those submitting proposals for the purpose of entering into definitive contracts of sale.

(g) Securing of additional information from those submitting proposals.

Nothing contained in this Act [sections 1941 to 1941y of this Appendix] shall be construed to prevent the Commission from securing such additional information from those submitting proposals at any time as the Commission may deem necessary or appropriate to fulfill its responsibilities under this Act [said sections].

(h) National security clause in contracts of sale.

All contracts of sale and instruments in execution thereof shall contain a national security clause having terms, conditions, restrictions and reservations which will assure the prompt availability of the rubber-producing facilities, or facilities of equivalent capacity, for the production of synthetic rubber and the component materials thereof for a period of ten years from the date of the contract.

(i) Effective date of contracts of sale; time for transfer of possession of facilities; failure to complete transfer prior to termination date.

Subject to the conditions prescribed in section 24 of this Act [section 1941v of this Appendix], any contract of sale shall become fully effective upon the expiration of the period for congressional review provided for in section 9 of this Act [section 1941g of this Appendix] unless the Congress within such period has disapproved such sale. The transfer of possession of all of the rubber-producing facilities to be sold shall be made as promptly as is practicable after the effective date, in accordance with the terms of the contracts, but in any event within a period terminating sixty days after the expiration of the period for congressional review as provided in section 9 (b) of this Act [section 1941g (b) of this Appendix]. The failure to complete transfer of possession prior to said termination date shall not give rise to or be the basis of rescission of the contract of sale.

(j) Limitation on Government rubber sales.

Upon termination of the transfer period, as provided in subsection (i) of this section, the operating agency last designated by the President shall make no further sales of synthetic rubber and its component materials except as otherwise provided in this Act [sections 1941 to 1941y of this Appendix].

(k) Offer of Government rubber for sale to purchasers of facilities after termination of transfer period.

During the period of one year following the termination of the transfer period, the operating agency last designated by the President shall offer for sale to the purchasers of the facilities the synthetic rubber and its component materials held by it at a price determined in accordance with its pricing policy prevailing at the close of the transfer period, in

amounts prorated in accordance with the ratio of the capacity of each such facility purchased to the total capacity of all facilities of the same type sold. Any synthetic rubber or component materials not purchased by an eligible purchaser during periodic intervals, as determined by the operating agency, shall be made available to other eligible purchasers on a like equitable basis. Any synthetic rubber or component materials not sold during such one-year period shall thereafter be disposed of in such manner as said agency deems advisable. (Aug. 7, 1953, ch. 338, § 7, 67 Stat. 409.)

This section is referred to in sections 1941 to 1941y of this Appendix.

§ 1941f. Disposition of unsold facilities; transfer to General Services Administration; lease of alcohol-butadiene facilities; advice of Attorney General; standby funds.

(a) Upon the termination of the transfer period, the operating agency last designated by the President, shall, as promptly as possible consistent with sound operating procedures, take out of production and place in adequate standby condition the rubber-producing facilities which shall not have been sold. At any time after the termination of production, such facilities may be transferred without reimbursement or transfer of funds to the General Services Administration and administered in accordance with the provisions of sections 6, 7, and 8 of the National Industrial Reserve Act of 1948, as amended (62 Stat. 1227, [sections 456 to 458 of this title]), or to such other agency as the President may designate for administration in such manner as he may direct. In such event (1) no such facility shall thereafter be operated as a rubber-producing facility for the account of, or by, the Government except pursuant to further Act of Congress; (2) no such facility, other than alcohol-butadiene facilities, shall be leased for operation as a rubber-producing facility at any time: *Provided,* That nothing contained in this Act [sections 1941 to 1941y of this Appendix] shall preclude the leasing of alcohol-butadiene facilities for purposes other than the manufacture of alcohol butadiene so long as such leases are in accordance with the provisions of section 8 (a) or section 9 (f) of this Act [subsection (a) of this section or section 1941g (f) of this Appendix]; and (3) no such facility shall be disposed of by sale within a period of three years from the termination of the transfer period, and in any subsequent lease or sale, the Government agency acting under authority of this section shall within a reasonable time and in no event less than sixty days prior to the lease or sale, request the advice of the Attorney General as to whether the proposed lease or sale would tend to create or maintain a situation inconsistent with the antitrust laws. The Attorney General shall give his advice within forty-five days of the receipt of such request. Upon the request of the Attorney General, the Government agency shall furnish, or cause to be furnished, such information as it may possess which the Attorney General determines to be appropriate or necessary to enable him to give the advice called for by this section.

(b) Whenever any transfer to any Government agency is made pursuant to this section, all unexpended funds budgeted as provided in section 9 (e) [section 1941g (e) of this Appendix] for standby and maintenance in such condition shall also be transferred. (Aug. 7, 1953, ch. 338, § 8, 67 Stat. 411.)

SALE OF LEASE OF CATALYST EQUIPMENT; TERMS AND CONDITIONS; SECURITY CLAUSE; PRICE; STANDBY CONDITION; AUTHORITY

Administration by Administrator of General Services of matters involving the Rubber Producing Facilities Disposal Commission, including the exercise of authority conferred upon the Commissiion by section 6 of Act Mar. 21, 1956, set out hereunder, see note entitled "Dissolution of Federal Facilities Corporation", set out under sections 1921—1938 of this Appendix.

Section 6 of act Mar. 21, 1956, ch. 89, 70 Stat. 53, provided that:

"(a) Notwithstanding any provision of the Rubber Producing Facilities Disposal Act of 1953, as amended [sections 1941—1941x of this Appendix], or of this Act [section 1941y and notes, and note set out under section 1941r of this Appendix], the Rubber Producing Facilities Disposal Commission may enter into contracts of sale and may from time to time enter into leases for all or any part of the catalyst manufacturing equipment now situated in Baltimore, Maryland, and generally described in the Commission's brochure M-2 dated March 1954.

"(b) Except as provided in this paragraph, each such lease or contract may be made on such terms and conditions, including type of use and duration (up to fifteen years) of any lease, as the Commission deems advisable in the public interest. Before making such sale or lease, the Commission shall secure the advice of the Attorney General as to whether the proposed sale or lease would tend to create or maintain a situation inconsistent with the antitrust laws. Each such lease or contract of sale shall contain a national security clause, containing such terms and for such duration (ten years or less) as the Commission deems desirable in the public interest, and any such lease shall provide for the recapture of the equipment thereby leased and the termination of the lease, if the President determines that the national interest so requires.

"The price for any part or all of such equipment shall be an amount which the Commission determines to be the maximum amount obtainable in the public interest, but not less than fair value as determined by the Commission.

"(c) Any of such equipment not sold or leased under subsection (a) shall be placed and maintained in adequate standby condition pursuant to, and be otherwise subject to, the provisions of section 8 of the Rubber Producing Facilities Disposal Act of 1953 [this section] (other than the provision prohibiting leases).

"(d) All the powers and authority conferred by this section upon the Commission may, after the termination of the existence of the Commission, be exercised by such agency of the Government as the President may designate for the purpose, and for this purpose such successor agency may exercise all the authority conferred in the Rubber Producing Facilities Disposal Act of 1953 [sections 1941 to 1941y of this Appendix] upon the Commission."

(c) Computation of period for Congressional action.

For the purposes of subsection (b) of this section—

(1) continuity of session shall be considered as broken only by an adjournment of the Congress sine die; but

(2) in the computation of the sixty-day period there shall be excluded the days on which either House is not in session because of an adjournment of more than three days to a day certain.

(d) Restriction on sale or lease of rubber producing facilities.

No rubber-producing facility shall be sold or leased except in accordance with this Act [sections 1941 to 1941y of this Appendix] or in accordance with section 7(d)(4) of the Rubber Act of 1948, as amended [section 1926(d)(4) of this Appendix].

Not less than sixty days prior to said lease the Commission shall request such advice from the Attorney General who shall give the same within forty-five days of the receipt of such request. The Administrator of General Services, before he offers the laboratories to the public for sale, shall ascertain what the value of the laboratories would be to Government agencies which would make substantial use thereof, and the Administrator shall not sell the laboratories to the public unless he finds, after consultation with the Director of the Budget Bureau, that such sale to the public would be in the best interests of the United States, taking into consideration among other relevant factors the value of the laboratories to any interested agency and the amounts offered by public bidders. (1) That the disposal program be designed best to afford small-business enterprises and users, other than the purchaser of a facility, the opportunity to obtain a fair share of the end products of the facilities sold and at fair prices;

(2) That the prospective purchaser has the technical competence necessary to operate a rubber-producing facility, except that prior experience in operating a rubber-producing facility shall not be required as a basis for determining whether a prospective purchaser has the technical competence necessary to operate a rubber-producing facility;

(3) That the recommended sales shall provide for the development within the United States of a free, competitive, synthetic rubber industry, and do not permit any person to possess unreasonable control over the manufacture of synthetic rubber or its component materials;

(4) That the prospective purchaser is acting in good faith, and actually intends to operate the facility or facilities for the purpose of manufacturing synthetic rubber or its component materials;

(5) That full fair value for the facility or facilities will be received by the Government, taking into consideration the policy set forth in section 2 of this Act [section 1941 of this Appendix];

(6) That disposal of the facility or facilities to the purchasers is consistent with national security; and

§ 1941u. Congressional resolutions respecting facilities.

(a) Resolutions as rules of Congress; changes.

The provisions of this section are enacted by the Congress:

(1) As an exercise of the rule-making power of the Senate and the house of Representatives, respectively, and as such they shall be considered as part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in such House in the case of resolutions (as defined in subsection (b)); and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(2) With full recognition of the constitutional right of either House to change such rules (so far as relating to the procedure in such House) at any time, in the same manner and to the same extent as in the case of any other rule of such House.

(b) Form of resolution.

As used in this section, the term "resolution" means only a resolution of either of the two Houses of Congress, the matter after the resolving clause of which is as follows: (1) "That the _____ does not favor sale of the facilities as recommended in the report of the Rubber Producing Facilities Disposal Commission.", the blank therein being filled with the name of the resolving House; or (2) "That the _____ does not favor the sale of the _____ as recommended in the report of the Rubber Producing Facilities Disposal Commission.", the first blank therein being filled with the name of the resolving House and the other blank being filled with a description of the facility or facilities proposed to be sold.

(1) If the committee to which has been referred a resolution with respect to a facility or facilities has not reported it before the expiration of ten calendar days after its introduction, it shall then (but not before) be in order to move either to discharge the committee from further consideration of such resolution, or to discharge the committee from further consideration of any other resolution

with respect to such facility or facilities which has been referred to the committee.

No amendment to such motion shall be in order, and it shall not be in order to move to reconsider the vote by which such motion is agreed to or disagreed to.

(e) Motion to consider resolution; amendment.

(1) Where the committee has reported, or has been discharged from further consideration of, a resolution with respect to a facility or facilities, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of such resolution. Unless the contract is disapproved by either House of the Congress by a resolution prior to the expiration of thirty days of continuous session (as defined in section 9 (c) [section 1941g (c) of this Appendix]) of the Congress following the date upon which the report is submitted to it, upon the expiration of such thirty-day period the contract shall become fully effective and the Commission shall proceed to carry it out, and transfer of possession of the facility sold shall be made as soon as practicable but in any event within thirty days after the expiration of such thirty-day period. The failure to complete transfer of possession within thirty days after the expiration of the period for congressional review shall not

give rise to or be the basis of rescission of the contract of sale.

(d) Standby condition.

If, upon termination of the transfer period provided for in subsection (c), no contract for the sale of Plancor Numbered 877 has become effective, the operating agency last designated by the President shall, as promptly as possible consistent with sound operating procedures, take said Plancor out of production and place it in adequate standby condition under the provisions of section 8 of the Rubber Producing Facilities Disposal Act of 1953 [section 1941f of this Appendix]: *Provided,* That the provisions in said section relating to the time for placing facilities in standby condition shall not apply to Plancor Numbered 877. (Aug. 7, 1953, ch. 338, § 25, as added Mar. 31, 1955, ch. 19, § 1, 69 Stat. 15.)

Sale of such end products shall be made at the Government sales price prevailing on the business day next preceding the date of transfer of possession of such plant. Sale of such feedstocks shall be made at not less than their cost to the Government. In the event the purchaser declines to purchase such end products or feedstocks when first offered to it by the operating agency, they may be thereafter disposed of in such manner as the operating agency deems advisable. In the event Plancor Numbered 877 is not sold under the provisions of this Act [this section], any end products produced at such plant and held in inventory for Government account on the day such plant is placed in standby condition pursuant to section 25 (d) of the Rubber Producing Facilities Disposal Act of 1953, as added by this Act [subsec. Each such lease may be for such duration and each such lease or contract of sale may be made on such terms (including type of use) as the Commission or such other agency deems advisable in the public interest: *Provided,* That each such lease or contract of sale shall contain, among other provisions, a national security clause, and each such lease shall contain provisions for the recapture of the tank cars leased by the Government and the termination of the lease, if the President determines that the national interest so requires. The rental or price for any such tank car or cars shall be an amount which the Commission or such agency determines to be the maximum amount obtainable in the public interest, but not less than fair value as determined by the Commission. Any of such tank cars not under lease or contract of sale to non-Federal lessees or purchasers may be transferred without charge by the Commission or such agency to any Government department or agency upon request, for such use as the Commission or such agency deems advisable and subject to national security and recapture provisions of the type hereinabove provided for in this section running in favor of the Commission or other agency transferring the tank car or cars. Any of such tank cars not sold or under lease or transferred as hereinabove provided shall be placed and maintained in adequate standby condition pursuant to the provisions of section 8 of the Rubber Producing Facilities Disposal Act of 1953 [section 1941f of this Appendix]."

Officers and employees of any other department or agency of the Government may, with the consent of the head of such department or agency, be assigned to assist the Commission in carrying out its functions. The Commission may, with the consent of the head of any other department or agency of the Government, utilize the facilities and services of such department or agency in carrying out the functions of the Commission.

(b) Rules and regulations; delegation of functions; time limit on filing of claims.

The Commission may prescribe such rules and regulations as may be necessary to enable it to carry out its functions, and may delegate functions to any member, officer, or employee of the Commission. The Commission shall give public notice of the time when, and the limit of time within which, claims may be filed, which notice shall be published in the Federal Register. The limit of time within which claims may be filed with the Commission shall in no event be later than March 31, 1952. The Commission shall take immediate action to advise all persons entitled to file claims under the provisions of this title [sections 2001 to 2012 and 2013 to 2016 of this Appendix] administered by the Commission of their rights under such provisions, and to assist them in the preparation and filing of their claims.

(c) Subpenas; issuance; contempt; witness fees; administration of oaths.

(1) For the purpose of any hearing, examination, or investigation under this title [sections 2001 to 2012 and 2013 to 2016 of this Appendix], the Commission and those employees designated by the Commission shall have the power to issue subpenas requiring persons to appear and testify or to appear and produce documents, or both, at any designated place where such hearing, examination, or investigation is being held. The production of a person's documents at any place other than his place of business shall not be required, however, in any case in which, prior to the return date specified in the subpena with respect thereto, such person either has furnished the issuer of the subpena with a copy of such documents (certified by such person under oath to be a true and correct copy) or has entered into a stipulation with the issuer of the subpena as to the information contained in such documents.

(2) The Commission may, in case of a failure or refusal on the part of any person to comply with any such subpena, invoke the aid of any United States district court within the jurisdiction of which the hearing, examination, or investigation is being conducted, or such person resides or transacts business. Such court may issue an order requiring such person to appear at the designated place of hearing, examination, or investigation, there to give or produce testimony or documentary evidence concerning the matter in question. Any failure to obey such order of the court shall be punishable by such court as a contempt thereof. All process in any such case may be served in the judicial district wherein such person resides or transacts business or wherever such person may be found.

(3) Witnesses subpenaed under this subsection shall be paid the same fees and mileage that are allowed and paid witnesses in United States district courts.

§ 2062. Declaration of policy.

In view of the present international situation and in order to provide for the national defense and national security, our mobilization effort continues to require some diversion of certain materials and facilities from civilian use to military and related purposes. It also requires the development of preparedness programs and the expansion of productive capacity and supply beyond the levels needed to meet the civilian demand, in order to reduce the time required for full mobilization in the event of an attack on the United States.

In order to insure productive capacity in the event of such an attack on the United States, it is the policy of the Congress to encourage the geographical dispersal of the industrial facilities of the United States in the interest of the national defense, and to discourage the concentration of such productive facilities within limited geographical areas which are vulnerable to attack by an enemy of the United States. In the construction of any Government-owned industrial facilities, in the rendition of any Government financial assistance for the construc-

tion, expansion, or improvement of any industrial facilities, and in the procurement of goods and services, under this or any other Act, each department and agency of the Executive Branch shall apply, under the coordination of the Office of Defense Mobilization, when practicable and consistent with existing law and the desirability for maintaining a sound economy, the principle of the geographical dispersal of such facilities in the interest of national defense. Nothing contained in this paragraph shall preclude the use of existing industrial facilities. (Sept. 8, 1950, ch. 932, § 2, 64 Stat. 798; June 30, 1953, ch. 171, § 2, 67 Stat. 129; Aug. 9, 1955, ch. 655, § 2, 69 Stat. 580; June 29, 1956, ch. 474, § 4, 70 Stat. 408.)

§ 2071. Priority in contracts and orders.

(a) Allocation of materials and facilities.

The President is authorized (1) to require that performance under contracts or orders (other than contracts of employment) which he deems necessary or appropriate to promote the national defense shall take priority over performance under any other contract or order, and, for the purpose of assuring such priority, to require acceptance and performance of such contracts or orders in preference to other contracts or orders by any person he finds to be capable of their performance, and (2) to allocate materials and facilities in such manner, upon such conditions, and to such extent as he shall deem necessary or appropriate to promote the national defense.

(b) Critical and strategic materials.

The powers granted in this section shall not be used to control the general distribution of any material in the civilian market unless the President finds (1) that such material is a scarce and critical material essential to the national defense, and (2) that the requirements of the national defense for such material cannot otherwise be met without creating a significant dislocation of the normal distribution of such material in the civilian market to such a degree as to create appreciable hardship. TITLE III—EXPANSION OF PRODUCTIVE CAPACITY AND SUPPLY

§ 2091. Loan guarantees.

In order to expedite production and deliveries or services under Government contracts, the President may authorize, subject to such regulations as he may prescribe, the Department of the Army, the Department of the Navy, the Department of the Air Force, the Department of Commerce, and such other agencies of the United States engaged in procurement for the national defense as he may designate (hereinafter referred to as "guaranteeing agencies"), without regard to provisions of law relating to the making, performance, amendment, or modification of contracts, to guarantee in whole or in part any public or private financing institution (including any Federal Reserve bank), by commitment to purchase, agreement to share losses, or otherwise, against loss of principal or interest on any loan, discount, or advance, or on any commitment in connection therewith, which may be made by such financing institution for the purpose of financing any contractor, subcontractor, or other person in connection with the performance of any contract or other operation deemed by the guaranteeing agency to be necessary to expedite production and deliveries or services under Government contracts for the procurement of materials or the performance of services for the national defense, or for the purpose of financing any contractor, subcontractor, or other person in connection with or in contemplation of the termination, in the interest of the United States, of any contract made for the national defense; but no small-business concern (as defined in section 714 (a) (1) of this Act) shall be held ineligible for the issuance of such a guaranty by reason of alternative sources of supply.

(b) Fiscal agents; accountability; reimbursement.

Any Federal agency or any Federal Reserve bank, when designated by the President, is authorized to act, on behalf of any guaranteeing agency, as fiscal agent of the United States in the making of such contracts of guarantee and in otherwise carrying out the purposes of this section. All such funds as may be necessary to enable any such fiscal agent to carry out any guarantee made by it on behalf of any guaranteeing agency shall be supplied and disbursed by or under authority from such guaranteeing agency. No such fiscal agent shall have any responsibility or accountability except as agent in taking any action pursuant to or under authority of the provisions of this section. Each such fiscal agent shall be reimbursed by each guaranteeing agency for all expenses and losses incurred by such fiscal agent in acting as agent on behalf of such guaranteeing agency, including among such expenses, notwithstanding any other provision of law, attorneys' fees and expenses of litigation.

(c) Supervision; interest, fees, procedures.

All actions and operations of such fiscal agents under authority of or pursuant to this section shall be subject to the supervision of the President, and to such regulations as he may prescribe; and the President is authorized to prescribe, either specifically or by maximum limits or otherwise, rates of interest, guarantee and commitment fees, and other charges which may be made in connection with loans, discounts, advances, or commitments guaranteed by the guaranteeing agencies through such fiscal agents, and to prescribe regulations governing the forms and procedures (which shall be uniform to the extent practicable) to be utilized in connection with such guarantees.

(d) Funds available for guarantees.

Each guaranteeing agency is authorized to use for the purposes of this section any funds which have heretofore been appropriated or allocated or which hereafter may be appropriated or allocated to it, or which are or may become available to it, for such purposes or for the purpose of meeting the necessities of the national defense.

(e) Maximum obligation; prevention of personal financial insolvency or bankruptcy.

(1) Except with the approval of the Congress, the maximum obligation of any guaranteeing agency under any loan, discount, advance, or commitment in connection therewith, entered into under this section shall not exceed $20,000,000.

(2) The authority conferred by this section shall not be used primarily to prevent the financial insolvency or bankruptcy of any person, unless

(A) the President certifies that the insolvency or bankruptcy would have a direct and substantially adverse effect upon defense production; and

(B) a copy of such certification, together with a detailed justification thereof, is transmitted to the Congress and to the Committees on Banking and Currency of the respective Houses at least ten days prior to the exercise of that authority for such use.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2061, 2072, 2093, 2094, 2151 to 2163, 2164 to 2168, 2182, 2183 of this Appendix.

§ 2093. Purchase of raw materials and installation of equipment.

(a) Purchases for use or resale; development of strategic minerals and metals; agricultural commodities; termination date.

To assist in carrying out the objectives of this Act [sections 2061, 2062, 2071 to 2073, 2091 to 2094, 2151 to 2163 and 2164 to 2168 of this Appendix], the President may make provision (1) for purchases of or commitments to purchase metals, minerals, and other materials, for Government use or resale; and (2) for the encouragement of exploration, development, and mining of critical and strategic minerals and metals: *Provided, however,* That purchases for resale under this subsection shall not include that part of the supply of an agricultural commodity which is domestically produced except insofar as such domestically produced supply may be purchased for resale for industrial uses or stockpiling, and no commodity purchased under this subsection shall be sold at less than the established ceiling price for such commodity (except that minerals and metals shall not be sold at less than the established ceiling price, or the current domestic market price,

whichever is lower), or, if no ceiling price has been established, the higher of the following: (i) the current domestic market price for such commodity, or (ii) the minimum sale price established for agricultural commodities owned or controlled by the Commodity Credit Corporation as provided in section 407 of Public Law 439, Eighty-first Congress [section 1427 of Title 7]: *Provided further, however,* That no purchase or commitment to purchase any imported agricultural commodity shall be made calling for delivery more than one year after the expiration of this Act [June 30, 1952].

(b) Terms and conditions of purchase.

Subject to the limitations in subsection (a) of this section, purchases and commitments to purchase and sales under such subsection may be made without regard to the limitations of existing law, for such quantities, and on such terms and conditions, including advance payments, and for such periods, but not extending beyond June 30, 1975, as the President deems necessary, except that purchases or commitments to purchase involving higher than established ceiling prices (or if there be no established ceiling prices, currently prevailing market prices) or anticipated loss on resale shall not be made unless it is determined that supply of the materials could not be effectively increased at lower prices or on terms more favorable to the Government or that such purchases are necessary to assure the availability to the United States of overseas supplies.

(c) Subsidy payments on domestically produced materials; exclusion of agricultural products.

If the President finds—

(1) that under generally fair and equitable ceiling prices for any raw or nonprocessed material, there will result a decrease in supplies from high-costs sources of such material, and that the continuation of such supplies is necessary to carry out the objectives of the Act [sections 2061, 2062, 2071 to 2073, 2091 to 2094, 2151 to 2163 and 2164 to 2168 of this Appendix]; or

(2) that an increase in cost of transportation is temporary in character and threatens to impair maximum production or supply in any area at stable prices of any materials;

he may make provision for subsidy payments on any such domestically produced material other than an agricultural commodity in such amounts and in such manner (including purchases of such material and its resale at a loss without regard to the limitations of existing law), and on such terms and conditions, as he determines to be necessary to insure that supplies from such high-cost sources are continued, or that maximum production or supply in such area at stable prices of such materials is maintained, as the case may be.

(d) Transportation, storage, and processing.

The procurement power granted to the President by this section shall include the power to transport and store and have processed and refined, any materials procured under this section.

(e) Installation of equipment in industrial facilities.

When in his judgment it will aid the national defense, the President is authorized to install additional equipment, facilities, processes or improvements to plants, factories, and other industrial facilities owned by the United States Government, and to install government-owned equipment in plants, factories, and other industrial facilities owned by private persons.

(f) Transfer of excess materials to national stockpile.

Notwithstanding any other provision of law to the contrary, metals, minerals, and materials acquired pursuant to the provisions of this section which, in the judgment of the President, are excess to the needs of programs under this Act [sections 2061, 2062, 2071 to 2073, 2091 to 2094, 2151 to 2163 and 2164 to 2168 of this Appendix], shall be transferred to the national stockpile established pursuant to the Act of June 7, 1939, as amended [sections 98—98h of Title 50], when the President deems such action to be in the public interest. Transfers made pursuant to this subsection shall be made without charge against or reimbursement from funds available under such Act of June 7, 1939 [sections 98 to 98h of Title 50], as amended, except that costs incident to such transfer other than acquisition costs shall be paid or reimbursed from such funds, and the acquisition costs of such metals, minerals, and materials transferred shall be deemed to be net losses incurred by the transferring agency and the notes payable issued to the Secretary of the Treasury representing the amounts thereof shall be canceled. Upon the cancellation of any such notes the aggregate amount of borrowing which may be outstanding at any one time under section 304 (b) of this Act, as amended [section 2094 (b) of this Appendix], shall be reduced in an amount equal to the amount of any notes so canceled.

(g) Development of substitutes for strategic and critical materials.

When in his judgment it will aid the national defense, and upon a certification by the Secretary of Agriculture or the Secretary of the Interior that a particular strategic and critical material is likely to be in short supply in time of war or other national emergency, the President may make provision for the development of substitutes for such strategic and critical materials. (Sept. 8, 1950, ch. 932, title III, § 303, 64 Stat. 801; July 31, 1951, ch. 275, title I, § 103(a), 65 Stat. 133; June 30, 1953, ch. 171, §§ 5, 6, 67 Stat. 130; Aug. 9, 1955, ch. 655, § 3, 69 Stat. 580; June 29, 1956, ch. 474, § 2, 70 Stat. 408; June 30, 1964, Pub. (a) may be sold at less than the established ceiling price, but not less than the current domestic market price, to limit the provision barring contracts calling for delivery more than one year after the expiration of this section to imported

agricultural commodities, to provide that purchases and commitments to purchase under subsec. (a) may not be made for any period extending beyond June 30, 1952, and to provide for a differential subsidy.

§ 2094. Utilization and creation of agencies; borrowing from Treasury; revolving fund; contingent liability of United States.

(a) For the purposes of sections 302 and 303 [sections 2092 and 2093 of this Appendix], the President is authorized to utilize such existing departments, agencies, officials, or corporations of the Government as he may deem appropriate, or to create new agencies (other than corporations).

(b) Any agency created under this section, and any department, agency, official, or corporation utilized pursuant to this section is authorized, subject to the approval of the President, to borrow from the Treasury of the United States, such sums of money as may be necessary to carry out its functions under sections 302 and 303 [sections 2092 and 2093 of this Appendix]: *Provided,* That the amount borrowed under the provisions of this section by all such borrowers shall not exceed an aggregate of $2,100,000,000 outstanding at any one time: *Provided further,* That when any contract, agreement, loan, or other transaction heretofore or hereafter entered into pursuant to section 302 or 303 [sections 2092 or 2093 of this Appendix] imposes contingent liability upon the United States, such liability shall be considered for the purposes of sections 3679 and 3732 of the Revised Statutes, as amended [section 665 of Title 31 and section 11 of Title 41], as an obligation only to the extent of the probable ultimate net cost to the United States under such transaction; and the President shall submit a report to the Congress not less often than once each six months setting forth the gross amount of each such transaction entered into by any agency of the United States Government under this authority and the basis for determining the probable ultimate net cost to the United States thereunder. § 2168. Cost Accounting Standards Board.

(a) Formation; Comptroller General as chairman; experience of Board members; terms of office; vacancies; compensation of Board members appointed from private life.

There is established, as an agent of the Congress, a Cost-Accounting Standards Board which shall be

independent of the executive departments and shall consist of the Comptroller General of the United States who shall serve as Chairman of the Board and four members to be appointed by the Comptroller General. Of the members appointed to the Board, two, of whom one shall be particularly knowledgeable about the cost accounting problems of small business, shall be from the accounting profession, one shall be representative of industry, and one shall be from a department or agency of the Federal Government who shall be appointed with the consent of the head of the department or agency concerned. The term of office of each of the appointed members of the Board shall be four years, except that any member appointed to fill a vacancy in the Board shall serve for the remainder of the term for which his predecessor was appointed. Each member of the Board appointed from private life shall receive compensation at the rate of one two-hundred-sixtieth of the rate prescribed for level IV of the Federal Executive Salary Schedule [section 5315 of Title 5] for each day (including traveltime) in which he is engaged in the actual performance of duties vested in the Board.

(b) Appointment and compensation of staff members.

The Board shall have the power to appoint, fix the compensation of, and remove an executive secretary and two additional staff members without regard to chapter 51, subchapters III and VI of chapter 53, and chapter 75 of title 5, United States Code, and those provisions of such title relating to appointment in the competitive service. The executive secretary and the two additional staff members may be paid compensation at rates not to exceed the rates prescribed for levels IV and V of the Federal Executive Salary Schedule, respectively [sections 5315 and 5316 of Title 5].

(c) Appointment and compensation of other necessary personnel.

The Board is authorized to appoint and fix the compensation of such other personnel as the Board deems necessary to carry out its functions.

(d) Utilization of personnel from Federal agencies or private life.

The Board may utilize personnel from the Federal Government (with the consent of the head of the agency concerned) or appoint personnel from private life without regard to chapter 51, subchapters III and VI of chapter 53, and chapter 75 of title 5, United States Code, and those provisions of such title relating to appointment in the competitive service, to serve on advisory committees and task forces to assist the Board in carrying out its functions and responsibilities under this section.

(e) Compensation of Board members and other personnel from Federal agencies; compensation of appointees from private life; travel expenses for personnel serving on an intermittent basis.

Except as otherwise provided in subsection (a), members of the Board and officers or employees of other agencies of the Federal Government utilized under this section shall receive no compensation for their services as such but shall continue to receive the compensation of their regular positions. Appointees under subsection (d) from private life shall receive compensation at rates fixed by the Board, not to exceed one two-hundred-sixtieth of the rate prescribed for level V in the Federal Executive Salary Schedule [section 5316 of Title 5] for each day (including traveltime) in which they are engaged in the actual performance of their duties as prescribed by the Board. While serving away from their homes or regular place of business, Board members and other appointees serving on an intermittent basis under this section shall be allowed travel expenses in accordance with section 5703 of title 5, United States Code.

(f) Cooperation between Board and other Federal departments and agencies.

All departments and agencies of the Government are authorized to cooperate with the Board and to furnish information, appropriate personnel with or without reimbursement, and such financial and other assistance as may be agreed to between the Board and the department or agency concerned.

(g) Promulgation of cost accounting standards; use of standards by defense contractors and relevant Federal agencies; conditions for use of standards.

The Board shall from time to time promulgate cost-accounting standards designed to achieve uniformity and consistency in the cost-accounting principles followed by defense contractors and subcontractors under Federal contracts. Such promulgated standards shall be used by all relevant Federal agencies and by defense contractors and subcontractors in estimating, accumulating, and reporting costs in connection with the pricing, administration and settlement of all negotiated prime contract and subcontract national defense procurements with the United States in excess of $100,000, other than contracts or subcontracts where the price negotiated is based on (1) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (2) prices set by law or regulation. In promulgating such standards the Board shall take into account the probable costs of implementation compared to the probable benefits.

(h) Implementation of cost accounting standards; cost accounting disclosure by defense contractors as a condition of contract; mandatory price adjustment clause in contract, with interest, for any increased costs due to contractor's failure to follow cost accounting standards; maximum rate and duration of interest; contract dispute; exemptions; effective date of proposed standards and regulations.

(1) The Board is authorized to make, promulgate, amend, and rescind rules and regulations for the implementation of cost-accounting standards promulgated under subsection (g). Such regulations shall require defense contractors and subcontractors as a condition of contracting to disclose in writing their cost-accounting principles, including methods of distinguishing direct costs from indirect costs and the basis used for allocating indirect costs, and to agree to a contract price adjustment, with interest, for any increased costs paid to the defense contractor by the United States because of the defense contractor's failure to comply with duly promulgated cost-accounting standards or to follow consistently his disclosed cost-accounting practices in pricing contract proposals and in accumulating and reporting contract performance cost data. Such interest

shall not exceed 7 per centum per annum measured from the time such payments were made to the contractor or subcontractor to the time such price adjustment is effected. If the parties fail to agree as to whether the defense contractor or subcontractor has complied with cost-accounting standards, the rules and regulations relating thereto, and cost adjustments demanded by the United States, such disagreement will constitute a dispute under the contract dispute clause.

(2) The Board is authorized, as soon as practicable after the date of enactment of this section [Aug. 15, 1970], to prescribe rules and regulations exempting from the requirements of this section such classes or categories of defense contractors or subcontractors under contracts negotiated in connection with national defense procurements as it determines, on the basis of the size of the contracts involved or otherwise, are appropriate and consistent with the purposes sought to be achieved by this section.

(3) Cost-accounting standards promulgated under subsection (g) and rules and regulations prescribed under this subsection shall take effect not earlier than the expiration of the first period of sixty calendar days of continuous session of the Congress following the date on which a copy of the proposed standards, rules, or regulations is transmitted to the Congress; if, between the date of transmittal and the expiration of such sixty-day period, there is not passed by the two Houses a concurrent resolution stating in substance that the Congress does not favor the proposed standards, rules, or regulations. For the purposes of this subparagraph, in the computation of the sixty-day period there shall be excluded the days on which either House is not in session because of adjournment of more than three days to a day to a day certain or an adjournment of Congress sine die. The provisions of this paragraph do not apply to modifications of cost accounting standards, rules, or regulations which have become effective in conformity with those provisions.

(i) Publication in Federal Register of cost accounting standards and regulations; submission and consideration of views and comments by interested parties; standards, regulations and modifications thereof as having full force and effect of law; effective date; exclusion of functions exercised from operation of specified laws; exemptions.

(A) Prior to the promulgation under this section of rules, regulations, cost-accounting standards, and modifications thereof, notice of the action proposed to be taken, including a description of the terms and substance thereof, shall be published in the Federal Register. All parties affected thereby shall be afforded a period of not less than thirty days after such publication in which to submit their views and comments with respect to the action proposed to be taken. After full consideration of the views and comments so submitted the Board may promulgate rules, regulations, cost-accounting standards, and modifications thereof which shall have the full force and effect of law and shall become effective not later than the start of the second fiscal quarter beginning after the expiration of not less than thirty days after publication in the Federal Register.

(B) The functions exercised under this section are excluded from the operation of sections 551, 553–559, and 701–706 of title 5, United States Code.

(C) The provisions of paragraph (A) of this subsection shall not be applicable to rules and regulations prescribed by the Board pursuant to subsection (h)(2).

(j) Determination of compliance with cost accounting standards; right of authorized person to examine and copy relevant records of contractor.

For the purpose of determining whether a defense contractor or subcontractor has complied with duly promulgated cost-accounting standards and has followed consistently his disclosed cost-accounting practices, any authorized representative of the head of the agency concerned, of the Board, or of the Comptroller General of the United States shall have the right to examine and make copies of any documents, papers, or records of such contractor or subcontractor relating to compliance with such cost-accounting standards and principles.

(k) Reports to Congress by Board.

The Board shall report to the Congres, not later than twenty-four months after the date of enactment of this section [Aug. 15, 1970], concerning its progress in promulgating cost-accounting standards under subsection (g) and rules and regulations under subsection (h). Thereafter, the Board shall make an annual report to the Congress with respect to its activities and operations, together with such recommendations as it deems appropriate.

(l) Authorization of appropriations.

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section. (Sept. 8, 1950, ch. 932, title VII, § 719, as added Aug. 15, 1970, Pub. L. 91–379, title I, § 103, 84 Stat. 796.)

(b) The payment of the basic allowance for quarters provided in section 403(a) of title 37 for enlisted members with dependents shall be made only for such periods as the enlisted member has in effect an allotment of pay not less than the sum of the basic allowance for quarters to which he is entitled plus $40 (or in the case of enlisted members in pay grades E-4 and E-5, $60; or in the case of enlisted members in pay grades E-6, E-7, E-8, and E-9, $80), for the support of the dependent or dependents on whose account the allowance is claimed: *Provided,* That such allotment shall not be required, (1) for the calendar month in which such member enters on active duty in a pay status if the allotment is effective from the following month; (2) for the calendar month in which such member is discharged, if not immediately reenlisted; (3) for the calendar month in which such member is released from active duty; (4) for the calendar month in which dependency ceases; (5) for the calendar month in which dependency commences if the allotment is effective from the following month; (6) for the calendar

(d) Any delay in initiating an allotment as required by this section shall not invalidate entitlement to basic allowance for quarters, provided that such allotment is made retroactive for such period as the member may elect to claim the allowance for his dependent or dependents. (e) The entitlement to the basic allowance for quarters provided for in this section shall be substantiated in such manner and in accordance with such regulations as the Secretary concerned may prescribe. PART 1.—PURPOSE AND SCOPE

SECTION 101 *Purpose.* This order consolidates the assignment of emergency preparedness functions to various departments and agencies heretofore contained in the 21 Executive orders and 2 Defense Mobilization orders listed in Section 3015 of this order. Assignments have been adjusted to conform to changes in organization which have occurred subsequent to the issuance of those Executive orders and Defense Mobilization orders.

SEC. 102 *Scope.* (a) This order is concerned with the emergency national planning and preparedness functions of the several departments and agencies of the Federal Government which complement the military readiness planning responsibilities of the Department of Defense; together, these measures provide the basic foundation for our overall national preparedness posture, and are fundamental to our ability to survive.

(b) The departments and agencies of the Federal Government are hereby severally charged with the duty of assuring the continuity of the Federal Government in any national emergency type situation that might confront the nation. To this end, each department and agency with essential functions, whether expressly identified in this order or not, shall develop such plans and take such actions, including but not limited to those specified in this order, as may be necessary to assure that it will be able to perform its essential functions, and continue as a viable part of the Federal Government, during any emergency that might conceivably occur. These include plans for maintaining the continuity of essential functions of the department or agency at the seat of government and elsewhere, through programs concerned with: (1) succession to office; (2) predelegation of emergency authority; (3) safekeeping of essential records; (4) emergency relocation sites supported by communications and required services; (5) emergency action steps; (6) alternate headquarters or command facilities; and (7) protection of Government resources, facilities, and personnel. The continuity of Government activities undertaken by the departments and agencies shall be in accordance with guidance provided by, and subject to evaluation by, the Director of the Office of Emergency Preparedness.

(c) In addition to the activities indicated above, the heads of departments and agencies described in Parts 2 through 29 of this order shall: (1) prepare national emergency plans, develop preparedness programs, and attain an appropriate state of readiness with respect to the functions assigned to them in this order for all conditions of national emergency; (2) give appropriate consideration to emergency preparedness factors in the conduct of the regular functions of their agencies, particularly those functions considered essential in time of emergency, and (3) be prepared to implement, in the event of an emergency, all appropriate plans developed under this order.

SEC. 103 *Presidential Assistance.* The Director of the Office of Emergency Preparedness, in accordance with the provisions of Executive Order No. 11051 of September 27, 1962 [set out as a note under section 2271 of this appendix], shall advise and assist the President in determining national preparedness goals and policies for the performance of functions under this order and in coordinating the performance of such functions with the total national preparedness program.

SEC. 104 *General and Specific Functions.* The functions assigned by Part 30, General Provisions, apply to all departments and agencies having emergency preparedness responsibilities. Specific functions are assigned to departments and agencies covered in Parts 2 through 29.

SEC. 105 *Construction.* The purpose and legal effect of the assignments contained in this order do not constitute authority to implement the emergency plans prepared pursuant to this order. Plans so developed may be effectuated only in the event that authority for such effectuation is provided by a law enacted by the Congress or by an order or directive issued by the President pursuant to statutes or the Constitution of the United States.

PART 2.—DEPARTMENT OF STATE

SECTION 201 *Functions.* The Secretary of State shall prepare national emergency plans and develop preparedness programs to permit modification or expansion of the activities of the Department of State and agencies, boards, and commissions under his jurisdiction in order to meet all conditions of national emergency, including attack upon the United States. The Secretary of State shall provide to all other departments and agencies overall foreign policy direction, coordination, and supervision in the formulation and execution of those emergency preparedness activities which have foreign policy implications, affect foreign relations, or depend directly or indirectly, on the policies and capabilities of the Department of State. The Secretary of State shall develop policies, plans, and procedures for carrying out his responsibilities in the conduct of the foreign relations of the United States under conditions of national emergency, including, but not limited to (1) the formulation and implementation, in consultation with the Department of Defense and other appropriate agencies, and the negotiation of contingency and post-emergency plans with our allies and of the intergovernmental agreements and arrangements required by such plans; (2) formulation, negotiation, and execution of policy affecting the relationships of the United States with neutral States; (3) formulation and execution of political strategy toward hostile or enemy States, including the definition of war objectives and the political means for achieving those objectives; (4) maintenance of diplomatic and consular representation abroad; (5) reporting and advising on conditions overseas which bear upon the national emergency; (6) carrying out or proposing economic measures with respect to other nations, including coordination with the export control functions of the Secretary of Commerce; (7) mutual assistance activities such as ascertaining requirements of the civilian economies of other nations, making recommendations to domestic resource agencies for meeting such requirements, and determining the availability of and making arrangements for obtaining foreign resources required by the United States; (8) providing foreign assistance, including continuous supervision and general direction of authorized economic and military assistance programs, and determination of the value thereof; (9) protection or evacuation of American citizens and nationals abroad and safeguarding their property; (10) protection and/or control of international organization and foreign diplomatic, consular, and other official personnel and property, or other assets, in the United States; (11) documentary control of persons seeking to enter or leave the United States; and (12) regulation and control of exports of items on the munitions list.

§ 2296. Compensation for acquisition of nongovernmental property; return of property to owner; disposal of surplus property.

(a) Except in the case of property acquired pursuant to section 201 (h) of this Act [section 2281 (h) of this Appendix] in conformity with the provisions of the Federal Property and Administrative Services Act of 1949, as amended, or through judicial proceedings for condemnation, the Administrator shall promptly determine the amount of the compensation to be paid for any property (other than that of the Federal Government or any department or agency thereof) or the use thereof acquired pursuant to this Act [sections 2251 to 2284, 2286 and 2291 to 2297 of this Appendix], but each such determination shall be made as of the time it is acquired in accordance with the provisions for just compensation in the fifth amendment to the Constitution of the United States. In the event the Administrator and the original owner do not agree as to the fair value of such property, the fair value shall be determined by three appraisers, one of whom shall be chosen by the Administrator, one by the original owner, and the third by the first two appraisers; the expenses of such determination shall be paid in equal shares by the Government and the original owner.

(c) Whenever the need for the purposes of this Act [sections 2251 to 2284, 2286 and 2291 to 2297 of this Appendix] of any personal property acquired under this Act [said sections] shall terminate, the Administrator may dispose of such property on such terms and conditions as he shall deem appropriate, but to the extent feasible and practicable he shall give to the former owner of any property so disposed of an opportunity to reacquire it (1) at its then fair value as determined by the Administrator, or (2) if it is to be disposed of (otherwise than at a public sale of which he shall give reasonable notice) at less than such value, at the highest price any other person is willing to pay therefor: *Provided,* That this opportunity to reacquire need not be given in the case of fungibles or items having a fair value of less than $1,000. The Congress makes the following findings:

(1) The availability of certain materials at home and abroad varies so that the quantity and composition of United States exports and their distribution among importing countries may affect the welfare of the domestic economy and may have an important bearing upon fulfillment of the foreign policy of the United States.

(2) The unrestricted export of materials, information, and technology without regard to whether they make a significant contribution to the military potential of any other nation or nations may adversely affect the national security of the United States.

(3) The unwarranted restriction of exports from the United States has a serious adverse effect on our balance of payments.

(4) The uncertainty of policy toward certain categories of exports has curtailed the efforts of American business in those categories to the detriment of the overall attempt to improve the trade balance of the United States. (Pub. L. 91–184, § 2, Dec. 30, 1969. 83 Stat. 841.)

SHORT TITLE

Section 1 of Pub. L. 91–184 provided that: "This Act [enacting sections 2401 to 2413 of this Appendix] may be cited as the 'Export Administration Act of 1969'."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2403 to 2413 of this Appendix.

§ 2402. Congressional declaration of policy.

The Congress makes the following declarations:

(1) It is the policy of the United States both (A) to encourage trade with all countries with which we have diplomatic or trading relations, except those countries with which such trade has been determined by the President to be against the national interest, and (B) to restrict the export of goods and technology which would make a significant contribution to the military potential of any other nation or nations which would prove detrimental to the national security of the United States.

(2) It is the policy of the United States to use export controls (A) to the extent necessary to protect

the domestic economy from the excessive drain of scarce materials and to reduce the serious inflationary impact of abnormal foreign demand, (B) to the extent necessary to further significantly the foreign policy of the United States and to fulfill its international responsibilities, and (C) to the extent necessary to exercise the necessary vigilance over exports from the standpoint of their significance to the national security of the United States.

(3) It is the policy of the United States (A) to formulate, reformulate, and apply any necessary controls to the maximum extent possible in cooperation with all nations with which the United States has defense treaty commitments, and (B) to formulate a unified trade control policy to be observed by all such nations.

(4) It is the policy of the United States to use its economic resources and trade potential to further the sound growth and stability of its economy as well as to further its national security and foreign policy objectives.

(5) It is the policy of the United States (A) to oppose restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries friendly to the United States, and (B) to encourage and request domestic concerns engaged in the export of articles, materials, supplies, or information, to refuse to take any action, including the furnishing of information or the signing of agreements, which has the effect of furthering or supporting the restrictive trade practices or boycotts fostered or imposed by any foreign country against another country friendly to the United States. (Pub. L. 91–184, § 3, Dec. 30, 1969, 83 Stat. 841.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2403 to 2413 of this Appendix.

§ 2403. Authority to effectuate policy.

(a) Secretary of Commerce.

(1) The Secretary of Commerce shall institute such organizational and procedural changes in any office or division of the Department of Commerce which has heretofore exercised functions relating to the control of exports and continues to exercise such controls under this Act [sections 2401 to 2413 of this Appendix] as he determines are necessary to facilitate and effectuate the fullest implementation of the policy set forth in this Act [sections 2401 to 2413 of this Appendix] with a view to promoting trade with all nations with which the United States is engaged in trade, including trade with (A) those countries or groups of countries with which other countries or groups of countries having defense treaty commitments with the United States have a significantly larger percentage of volume of trade than does the United States, and (B) other countries eligible for trade with the United States but not significantly engaged in trade with the United States. In addition, the Secretary shall review any list of articles, materials, or supplies, including technical data or other information, the exportation of which from the United States, its territories and possessions, was heretofore prohibited or curtailed with a view to making promptly such changes and revisions in such list as may be necessary or desirable in furtherance of the policy, purposes, and provisions of this Act [sections 2401 to 2413 of this Appendix]. The Secretary shall include a detailed statement with respect to actions taken in compliance with the provisions of this paragraph in the second quarterly report (and in any subsequent report with respect to actions taken during the preceding quarter) made by him to the Congress after the date of enactment of this Act [December 30, 1969] pursuant to section 10 [section 2409 of this Appendix].

(2) The Secretary of Commerce shall use all practicable means available to him to keep the business sector of the Nation fully apprised of changes in export control policy and procedures instituted in conformity with this Act [sections 2401 to 2413 of this Appendix] with a view to encouraging the widest possible trade.

(b) Presidential determinations; rules and regulations.

To effectuate the policies set forth in section 3 of this Act [section 2402 of this Appendix], the President may prohibit or curtail the exportation from the United States, its territories and possessions, of any articles, materials, or supplies, including technical data or any other information, except under such rules and regulations as he shall prescribe. To the extent necessary to achieve effective enforcement of this Act [sections 2401 to 2413 of this Appendix], these rules and regulations may apply to the financing, transporting, and other servicing of exports and the participation therein by any person. Rules and regulations may provide for denial of any request or application for authority to export articles, materials, or supplies, including technical data, or any other information, from the United States, its territories and possessions, to any nation or combination of nations threatening the national security of the United States if the President determines that their export would prove detrimental to the national security of the United States, regardless of their availability from nations other than any nation or combination of nations threatening the national security of the United States, but whenever export licenses are required on the ground that considerations of national security override considerations of foreign availability, the reasons for so doing shall be reported to the Congress in the quarterly report following the decision to require such licenses on that ground to the extent considerations of national security and foreign policy permit. The rules and regulations shall implement the provisions of section 3(5) of this Act [section 2402(5) of this Appendix] and shall require that all domestic concerns receiving requests for the furnishing of information or the signing of agreements as specified in that section must report this fact to the Secretary of Commerce for such action as he may deem appropriate to carry out the purposes of that section.

(c) Protection of national security, foreign policy and domestic economy.

Nothing in this Act [sections 2401 to 2413 of this Appendix] or in the rules and regulations authorized by it, shall in any way be construed to require authority and permission to export articles, materials,

supplies, data, or information except where the national security, the foreign policy of the United States, or the need to protect the domestic economy from the excessive drain of scarce materials makes such requirement necessary.

(d) Delegation of Presidential authority and power.

The President may delegate the power, authority, and discretion conferred upon him by this Act [sections 2401 to 2413 of this Appendix] to such departments, agencies, or officials of the Government as he may deem appropriate.

(e) Exclusion of agricultural commodities.

The authority conferred by this section shall not be exercised with respect to any agricultural commodity, including fats and oils, during any period for which the supply of such commodity is determined by the Secretary of Agriculture to be in excess of the requirements of the domestic economy, except to the extent required to effectuate the policies set forth in clause (B) or (C) of paragraph (2) of section 3 of this Act [section 2402 of this Appendix]. (Pub. L. 91–184, § 4, Dec. 30, 1969, 83 Stat. 842.)

The Export Control Review Board established by section 2 of Executive Order No. 10945 of May 24, 1961, is hereby reestablished as the Export Administration Review Board (hereinafter referred to as the Board). The Board shall be composed of the Secretary of Commerce, who shall be the Chairman of the Board, the Secretary of State, and the Secretary of Defense. No alternate Board members shall be designated, but the acting head of any department may serve in lieu of the head of the department concerned. The Board may invite the heads of Government agencies, other than the departments represented by the Board members, to participate in the activities of the Board when matters of interest to such agencies are under consideration.

SEC. 3. The Secretary of Commerce may from time to time refer to the Board such particular export license matters, involving questions of national security or other major policy issues, as he shall select. The Secretary of Commerce shall also refer to the Board any other such export license matter, upon the request of any other member of the Board or of the head of any other Government department or agency having an interest in such matter. The Board shall consider the matters so referred to it, giving due consideration to the foreign policy of the United States, the national security, and the domestic economy, and shall make recommendations thereon to the Secretary of Commerce.

SEC. 4. The President may at any time (a) prescribe rules and regulations applicable to the power, authority, and discretion referred to in section 1 of this order, and (b) communicate to the Secretary of Commerce such specific directives applicable thereto as the President shall determine. The Secretary of Commerce shall from time to time report to the President upon the administration of the Export Administration Act of 1969 and, as he may deem necessary, may refer to the President recommendations made by the Board under section 3 of this order. Neither the provisions of this section nor those of section 3 shall be construed as limiting the provisions of section 1 of this order.

SEC. 5. All outstanding delegations, rules, regulations, orders, licenses, or other forms of administrative action made, issued, or otherwise taken under, or continued in force by the Export Control Act of 1949, as amended, shall remain in full force and effect under the Export Administration Act of 1969 and under this order, until amended, modified, or terminated by proper authority.

SEC. 6. This order shall be effective January 1, 1970.

§ 2404. Consultations for determination of controls; standards or criteria established.

(a) In determining what shall be controlled hereunder, and in determining the extent to which exports shall be limited, any department, agency, or official making these determinations shall seek information and advice from the several executive departments and independent agencies concerned with aspects of our domestic and foreign policies and operations having an important bearing on exports. Consistent with considerations of national security, the President shall from time to time seek information and advice from various segments of private industry in connection with the making of these determinations.

(b) In authorizing exports, full utilization of private competitive trade channels shall be encouraged insofar as practicable, giving consideration to the interests of small business, merchant exporters as well as producers, and established and new exporters, and provision shall be made for representative trade consultation to that end. In addition, there may be applied such other standards or criteria as may be deemed necessary by the head of such department, or agency, or official to carry out the policies of this Act [sections 2401 to 2413 of this Appendix]. (Pub. L. 91–184, § 5, Dec. 30, 1969, 83 Stat. 843.)

§ 2405. Violations and penalties.

(a) Generally; subsequent offenses.

For a second or subsequent offense, the offender shall be fined not more than three times the value of the exports involved or $20,000, whichever is greater, or imprisoned not more than five years, or both.

(b) Export to Communist-dominated nations; penalties.

Whoever willfully exports anything contrary to any provision of this Act [sections 2401 to 2413 of this Appendix] or any regulation, order, or license issued thereunder, with knowledge that such exports will be used for the benefit of any Communist-dominated nation, shall be fined not more than five times the value of the exports involved or $20,000, whichever is greater, or imprisoned not more than five years, or both.

(c) Civil penalty for violations.

The head of any department or agency exercising any functions under this Act [sections 2401 to 2413 of this Appendix], or any officer or employee of such department or agency specifically designated by the head thereof, may impose a civil penalty not to exceed $1,000 for each violation of this Act [sections 2401 to 2413 of this Appendix] or any regulation, order, or license issued under this Act [sections 2401 to 2413 of this Appendix], either in addition to or in lieu of any other liability or penalty which may be imposed.

(d) Export licenses.

(e) Discretion to refund civil penalty.

Any amount paid in satisfaction of any penalty imposed pursuant to subsection (c) shall be covered into the Treasury as a miscellaneous receipt. (f) Action for recovery of civil penalty.

In the event of the failure of any person to pay a penalty imposed pursuant to subsection (c), a civil action for the recovery thereof may, in the discretion of the head of the department or agency concerned, be brought in the name of the United States. In any such action, the court shall determine de novo all issues necessary to the establishment of liability. Except as provided in the subsection and in subsection (d), no such liability shall be asserted, claimed, or recovered upon by the United States in any way unless it has previously been reduced to judgment.

(g) Availability of other remedies.

(g) Nothing in subsection (c), (d), or (f) limits

(1) the availability of other administrative or judicial remedies with respect to violations of this Act [sections 2401–2413 of this Appendix], or any regulation, order, or license issued under this Act [sections 2401 to 2413 of this Appendix];

TABLE II—REVISED STATUTES 1878

Showing where sections of the Revised Statutes of the United States of 1878 will be found in this edition of the United States Code.

Abbreviations

Rep.—Repealed. Where "Rep." appears in the status column following a U.S.C. reference an explanation of the repeal can be found under such U.S.C. title and section. Where no U.S.C. reference appears the Rev. St. section was repealed prior to the adoption of the United States Code (1926) or for other reasons was not included in the Code but was subsequently repealed.

Rev. T.—Revised Title. Where "Rev. T." appears in the status column the U.S.C. reference is to title and section where the Rev. St. section was originally allocated in the U.S.C. To locate the Rev. St. section in the U.S.C. new title, see the Table (Pages 12583 to 12638, this volume).

Elim.—Eliminated. Where "Elim." appears in the status column following a U.S.C. reference the reason for the elimination of the text can be found under such U.S.C. title and section.

I.R.C. '39—Internal Revenue Code of 1939. Where I.R.C. '39 appears in the status column, it is an indication that the provision was repealed or otherwise superseded by the Internal Revenue Code of 1939.

§ 811. Congressional finding of necessity.

As a result of evidence adduced before various committees of the Senate and the House of Representatives, the Congress finds that—

(1) There exists a world Communist movement which in its origins, its development, and its present practice, is a world-wide revolutionary movement whose purpose it is, by treachery, deceit, infiltration into other groups (governmental and otherwise), espionage, sabotage, terrorism, and any other means deemed necessary, to establish a Communist totalitarian dictatorship in all the countries of the world through the medium of a world-wide Communist organization.

(2) The establishment of a totalitarian dictatorship in any country results in the suppression of all opposition to the party in power, the complete subordination of the rights of individuals to the state, the denial of fundamental rights and liberties which are characteristic of a representative form of government, such as freedom of speech, of the press, of assembly, and of religious worship, and results in the maintenance of control over the people through fear, terrorism and brutality.

(3) The system of government known as a totalitarian dictatorship is characterized by the existence of a single political party, organized on a dictatorial basis, and by substantial identity between such party and its policies and the government and governmental policies of the country in which it exists.

(4) The direction and control of the world Communist movement is vested in and exercised by the Communist dictatorship of a foreign country.

(5) The Communist dictatorship of such foreign country, in exercising such direction and control and in furthering the purposes of the world Communist movement, establishes or causes the establishment of, and utilizes, in various countries, action organizations which are not free and independent organizations, but are sections of a world-wide Communist organization and are controlled, directed, and subject to the discipline of the Communist dictatorship of such foreign country.

(6) The organizations so established and utilized in various countries, acting under such control, direction, and discipline, endeavor to carry out the objectives of the world Communist movement by bringing about the overthrow of existing governments and setting up Communist totalitarian dictatorships which will be subservient to the most powerful existing Communist totalitarian dictatorship. Although such Communist organizations usually designate themselves as political parties, they are in fact constituent elements of the world-wide movement and promote the objectives of such movement by conspiratorial and coercive tactics, and especially by the use of espionage and sabotage, instead of through the democratic processes of a free elective system or through the freedom-preserving means employed by a political party which operates as an agency by which people govern themselves.

(7) In the United States those individuals who knowingly and willfully participate in the world Communist movement, when they so participate, in effect repudiate their allegiance to the United States and in effect transfer their allegiance to the foreign country in which is vested the direction and control of the world Communist movement; and, in countries other than the United States, those individuals who knowingly and willfully participate in such Communist movement similarly repudiate their allegiance to the countries of which they are nationals in favor of such foreign Communist country.

(8) In pursuance of communism's stated objectives, the most powerful existing Communist dictatorship has, by the methods referred to above, already caused the establishment in numerous foreign countries of Communist totalitarian dictatorships, and threatens to establish similar dictatorships in still other countries.

(9) The agents of communism have devised clever and ruthless espionage and sabotage tactics which are carried out in many instances in form or manner successfully evasive of existing law, and which in this country are directed against the safety and peace of the United States.

(10) The experience of many countries in World War II and thereafter with so-called "fifth columns" which employed espionage and sabotage to weaken the internal security and defense of nations resisting totalitarian dictatorships demonstrated the grave dangers and fatal effectiveness of such internal espionage and sabotage.

(11) The security and safety of the territory and Constitution of the United States, and the

successful prosecution of the common defense, especially in time of invasion, war, or insurrection in aid of a foreign enemy, require every reasonable and lawful protection against espionage, and against sabotage to national-defense material, premises, forces, and utilities, including related facilities for mining, manufacturing, transportation, research, training, military and civilian supply, and other activities essential to national defense.

(12) Due to the wide distribution and complex interrelation of facilities which are essential to national defense and due to the increased effectiveness and technical development in espionage and sabotage activities, the free and unrestrained movement in such emergencies of members or agents of such organizations and of others associated in their espionage and sabotage operations would make adequate surveillance to prevent espionage and sabotage impossible and would therefore constitute a clear and present danger to the public peace and the safety of the United States.

(13) The recent successes of Communist methods in other countries and the nature and control of the world Communist movement itself present a clear and present danger to the security of the United States and to the existence of free American institutions, and make it necessary that Congress, in order to provide for the common defense, to preserve the sovereignty of the United States as an independent nation, and to guarantee to each State a republican form of government, enact appropriate legislation recognizing the existence of such world-wide conspiracy and designed to prevent it from accomplishing its purpose in the United States.

(14) The detention of persons who there is reasonable ground to believe probably will commit or conspire with others to commit espionage or sabotage is, in a time of internal security emergency, essential to the common defense and to the safety and security of the territory, the people and the Constitution of the United States.

(15) It is also essential that such detention in an emergency involving the internal security of the Nation shall be so authorized, executed, restricted and reviewed as to prevent any interference with the constitutional rights and privileges of any persons, and at the same time shall be sufficiently effective to permit the performance by the Congress and the President of their constitutional duties to provide for the common defense, to wage war, and to preserve, protect and defend the Constitution, the Government and the people of the United States.

SEPARABILITY OF PROVISIONS

The first sentence of section 116 of act Sept. 23, 1950, provided: "If any provision of this title [this subchapter], or the application thereof to any person or circumstance, is held invalid, the remaining provisions of this title [this subchapter], or the application of such provision to other persons or circumstances, shall not be affected thereby."

§ 812. Declaration of "internal security emergency" by President; events warranting; period of existence.

(a) In the event of any one of the following:

(1) Invasion of the territory of the United States or its possessions,

(2) Declaration of war by Congress, or

(3) Insurrection within the United States in aid of a foreign enemy.

and if, upon the occurrence of one or more of the above, the President shall find that the proclamation of an emergency pursuant to this section is essential to the preservation, protection and defense of the Constitution, and to the common defense and safety of the territory and people of the United States, the President is authorized to make public proclamation of the existence of an "Internal Security Emergency".

(b) A state of "Internal Security Emergency" (hereinafter referred to as the "emergency") so declared shall continue in existence until terminated by proclamation of the President or by concurrent resolution of the Congress. (Sept. 23, 1950, ch. 1024, title II, § 102, 64 Stat. 1021.)

APPLICATION TO COMMUNIST PARTY MEMBERS

Application of this section to members of the Communist Party and other subversive organizations, see section 843 of this title, and References in Text note under that section.

§ 813. Detention during emergency; release.

(a) Whenever there shall be in existence such an emergency, the President, acting through the Attorney General, is authorized to apprehend and by order detain, pursuant to the provisions of this subchapter, each person as to whom there is reasonable ground to believe that such person probably will engage in, or probably will conspire with others to engage in, acts of espionage or of sabotage.

(b) Any person detained hereunder (hereinafter referred to as "the detainee") shall be released from such emergency detention upon—

(1) the termination of such emergency by proclamation of the President or by concurrent resolution of the Congress;

(2) an order of release issued by the Attorney General;

(3) a final order of release after hearing by the Board of Detention Review, hereinafter established;

(4) a final order of release by a United States court, after review of the action of the Board of Detention Review, or upon a writ of habeas corpus.

(Sept. 23, 1950, ch. 1024, title II, § 103, 64 Stat. 1021.)

APPLICATION TO COMMUNIST PARTY MEMBERS

Application of this section to members of the Communist Party and other subversive organizations, see section 843 of this title, and References in Text note under that section.

§ 814. Procedure for apprehension and detention.

(a) Warrants and applications.

The Attorney General, or such officer or officers of the Department of Justice as he may from time to time designate, are authorized during such emergency to execute in writing and to issue—

(1) a warrant for the apprehension of each person as to whom there is reasonable ground to believe that such person probably will engage in, or probably will conspire with others to engage in, acts of espionage or sabotage; and

(2) an application for an order to be issued pursuant to subsection (d) of this section for the detention of such person for the duration of such emergency.

Each such warrant shall issue only upon probable cause, supported by oath or affirmation, and shall particularly describe the person to be apprehended or detained.

(b) Service of warrants and apprehension; copies for persons apprehended.

Warrants for the apprehension of persons under this subchapter shall be served and apprehension of such persons shall be made only by such duly authorized officers of the Department of Justice as the Attorney General may designate. A copy of the warrant for apprehension shall be furnished to any person apprehended under this subchapter.

(c) Places of confinement; provision for transportation, food, shelter, etc., and supervision.

Persons apprehended or detained under this subchapter shall be confined in such places of detention as may be prescribed by the Attorney General. The Attorney General shall provide for all detainees such transportation, food, shelter, and other accommodation and supervision as in his judgment may be necessary to accomplish the purpose of this subchapter.

(d) Preliminary hearing; rights of detainee; evidence; orders and reports of hearing officer; appointment of preliminary hearing officers.

Within forty-eight hours after apprehension, or as soon thereafter as provision for it may be made, each person apprehended pursuant to this section shall be taken before a preliminary hearing officer appointed pursuant to the provisions of this section. Such hearing officer shall inform such person (1) of the grounds upon which application was made for his detention, (2) of his right to retain counsel, (3) of his right to have a preliminary examination, (4) of his right to refrain from making any statement, and (5) of the fact that any statement made by him may be used against him. Such hearing officer shall allow such person reasonable time and opportunity to consult counsel. If such person waives preliminary examination, the hearing officer shall forthwith issue an order for the detention of such person, and furnish to him a copy of such order. If such person does not waive examination, the preliminary hearing officer shall hear evidence within a reasonable time. Such person may introduce evidence in his own behalf, and may cross-examine witnesses against him, except that the Attorney General or his representative shall not be required to furnish information the revelation of which would disclose the identity or evidence of Government agents or officers which he believes it would be dangerous to national safety and security to divulge. Such hearing officer shall record all evidence offered by or on behalf of such person and all objections made by such person to his detention. If from the evidence it appears to the preliminary hearing officer that there is probable cause for the detention of such person pursuant to this subchapter, such hearing officer shall forthwith issue an order for the detention of such person, furnish to him a copy of such order, and advise such person of his right to file with the Detention Review Board established by this subchapter a petition for the review of such order. If from the evidence it appears to the preliminary hearing officer that probable cause for the detention of such person has not been shown, such officer shall issue an order discharging such person from detention, and shall furnish a copy of such order to such person. Upon the entry of such order, such person shall be released from custody by the Attorney General and by any subordinate officer or employee of the United States having custody of such person. Within seven days after the entry of any such order, the preliminary hearing officer shall prepare and transmit to the Attorney General, or such other officer as may be designated by him, (1) a report which shall set forth the result of such preliminary hearing, together with his recommendations with respect to the question whether any order issued for the detention of such person shall be continued in effect or revoked, and (2) any additional written representations or evidence which the detainee or his legal counsel may wish to file with the Attorney General. A copy of such report shall be served promptly upon the detainee or his legal counsel. Preliminary hearing officers may be appointed by the President, without regard to the civil service laws but subject to chapter 51 and subchapter III of chapter 53 of Title 5, in such numbers, and may serve at such places, as may be necessary for the expeditious consideration of cases involving persons apprehended pursuant to this section. No person who has, within the three years preceding the date of his appointment, served as an officer or employee of the Department of Justice shall be appointed as a preliminary hearing officer.

(e) Receipt of additional information upon request of detainee; revocation or modification of detention order.

The Attorney General, or such other officers of the Department of Justice as he may designate, shall upon request of any detainee from time to time receive such additional information bearing upon the grounds for the detention as the detainee or any other person may present in writing. If on the basis of such additional information received by the Attorney General or transmitted to him by such officers, he shall find there is no longer reasonable ground to believe that the detainee probably will engage in, or probably will conspire with others to engage in, acts of espionage or sabotage if released, the Attorney General is authorized to issue an order revoking the initial order or any final Board or court order of detention and to release such detainee. The Attorney General is also authorized to modify the

order under which any detainee is detained and apply to such detainee such lesser restrictions in movement and activity as the Attorney General shall determine will serve the purposes of this subchapter.

(f) Presentation of evidence in case of Board or court review; right to withhold certain information.

In case of Board or court review of any detention order, the Attorney General, or such review officers as he may designate, shall present to the Board, the court, and the detainee to the fullest extent possible consistent with national security, the evidence supporting a finding of reasonable ground for detention in respect to the detainee, but he shall not be required to offer or present evidence of any agents or officers of the Government the revelation of which in his judgment would be dangerous to the security and safety of the United States.

(g) Regulations by Attorney General; exclusion of forced labor and confinement with criminals.

The Attorney General is authorized to prescribe such regulations, not inconsistent with the provisions of this subchapter, as he shall deem necessary to promote the effective administration of this subchapter. No such regulation shall require or permit persons detained under the provisions of this subchapter to perform forced labor, or any tasks not reasonably associated with their own comfort and well-being, or to be confined in company with persons who are confined pursuant to the criminal laws of the United States or of any State.

(h) Bimonthly reports to President and Congress during emergency.

Whenever there shall be in existence an emergency within the meaning of this subchapter, the Attorney General shall transmit bimonthly to the President and to Congress a report of all action taken pursuant to the powers granted in this subchapter. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 819, 820 of this title.

§ 815. Detention Review Board.

(a) Creation; membership; terms; designation of Chairman; removal.

The President is authorized to establish a Detention Review Board (referred to in this subchapter as the "Board") which shall consist of nine members, not more than five of whom shall be members of the same political party, appointed by the President by and with the advice and consent of the Senate. Of the original members of the Board, three shall be appointed for terms of one year each, three for terms of two years each, and three for terms of three years each, but their successors shall be appointed for terms of three years each, subject to termination of the term upon expiration of this subchapter, except that any individual chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he shall succeed. The President shall designate one member to serve as Chairman of the Board. Any member of the Board may be removed by the President, upon notice and hearing, for neglect of duty or for malfeasance in office, but for no other cause.

(b) Board divisions; vacancies; powers of remaining members; quorum; official seal; judicial notice.

The Board is authorized to establish divisions thereof, each of which shall consist of not less than three of the members of the Board. Each such division may be delegated any or all of the powers which the Board may exercise. A vacancy in the Board shall not impair the right of the remaining members to exercise all of the powers of the Board, and five members of the Board shall at all times constitute a quorum of the Board, except that two members shall constitute a quorum of any division established pursuant to this subsection. The Board shall have an official seal which shall be judicially noticed.

(c) Reports to Congress; contents.

At the close of each fiscal year the Board shall make a report in writing to the Congress and to the President stating in detail the cases it has heard, the decisions it has rendered, the names, salaries, and duties of all employees and officers in the employ or under the supervision of the Board, and an account of all moneys it has disbursed.

(d) Dissolution upon termination of emergency, release of detainees, and conclusion of proceedings; subsequent establishment.

In the event of a proclamation by the President or a concurrent resolution of the Congress terminating the existence of a state of emergency, and after the release of all detainees and the conclusion of all pending matters before the Board and of all pending appeals in the courts from orders of the Board, the President shall within a reasonable time dissolve and terminate the Board and all of its authority, powers, functions, and duties. Such termination shall not preclude the subsequent establishment by the President, pursuant to this subchapter, of another Board with all of the rights, authority, and duties prescribed by this subchapter, in the event that he shall proclaim another emergency or shall determine that the proclamation of such an emergency may soon be essential to the national security. (Sept. 23, 1950, ch. 1024, title II, § 105, 64 Stat. 1023.)
